Bueno, además creemos que la voz de Mark Rose aquí está mejor que nunca, me gustas todo el rato, tercer single de Mark Axel y es próximo disco de Sidonique, se publica el 27 de octubre y el 28 estarán con Julio Rodenas y con una servidora en el típico programa de Radio 3, bueno seguimos aquí en 180 y ahora vamos con una colaboración porque Masterpiece llama a Georgia para firmar este pelotazo que se titula I might be fake y que en realidad forma parte de un disco que es una especie de homenaje al City Sound System, Calvin Harris y Friendly Fires.

Your attitude, a little rude and 6 for 5
Your eyes are sending me a message, I get it
We haven't touched yet, but the feeling's electric
Oh, my head and heart is telling me no, but my body's telling me to let go
Oh, I'm gonna drink one last pose, but honestly, I just came to dance
Uh huh, you messed up all my plans
Uh huh, but I'll give you a chance
Uh huh, and now I'm saying baby
Call me going crazy when I just came to dance
You spent the whole night only looking at my lips
I got a feeling this weren't in with just a kiss
Am I in the tears, but it's too late now, forget it
And if I woke away, I know how regret it
Oh, my head and heart is telling me no, but my body's telling me to let go
Oh, I'm gonna drink one last pose, but honestly, I just came to dance
Uh huh, you messed up all my plans
Uh huh, but I'll give you a chance
Uh huh, you call me going crazy
I told you baby

I am not the type
So try another time
Early in the morning
You messed up the number
I am not the type
So try another time
You're done
You woke up the way you like
You couldn't change my mind
Good thing I said goodbye
You played yourself this time
Early in the morning
You're trying to call me
But you're lonely, lonely
Hell, don't buy it, wait
Won't do that again
Plutaleo, me pluto, great
Tu m'a montré jusqu'il tu es
Don't try to defend
I still what I said

And I'm all out of feelings
And I think it's better
Spend your life, let it die
Train of thoughts, it's tonight
You're the star
You should have known
But never mind
Would I ever get you
If I couldn't get through
Next you
Early in the morning
You'll be up and calling
I am not the type
So try another time
Early in the morning
You messed up the number
I am not the type
I am not the type
So try another time
Early in the morning
You couldn't change my mind
Good thing I said goodbye

Look
Afflatation
Your hesitation
Back and forth too many steps
I'm done waiting
Like I've committed
It's too much
Had my heart driven
Getting you out of my head
Was what was missing
So I'm gonna turn me up
I wanna go crazy

Had enough of all of your shady shit
It's tough, I'm done
But you're lazy, yeah
Signing to that
Early in the morning
Día de Lolo Swai y de Amber
Mark
Bueno, de Australia nos volvemos a Estados Unidos
vamos en completo a Chicago
para escuchar a Jamila Woods con Practice
el último avance del disco que publica
pasado mañana con el nombre de
Water Midas
I just wanna share the song with you
We don't gotta hurry up
You ain't gotta be the one
We were just rehearsing baby
No this ain't the game
We're talking about practice
Talking about
We can stop time for the free throw
Got more patience than a tree crow
Got love that feels like a cheat code
No stress, no nothing heavy
We can stop time for the free throw
Got more patience than a tree crow
Got love that feels like a cheat code
Keeping these light and easy
It's been a few days and I'm missing your face
I like the way I sleep waking up at your place
I like the way you move but I never assume
I'm the only one you choose
I get in my moods
I grow green when your friends are new
I want weekdays and weekends too
I like you when it's rainy too
This is not how I usually do

veux

Andaba tiempo, demasiado detrás Hubiera cruzado el océano

Como una torcha que nadie pueda pagar Te voy a dar mi fuego eterno

Me gusta haber cruzado el umbral No hay nada que lo pueda parar

Brillan en mi pecho 100 mil bolas de cristal Brillan cuando llegas como luces de el ciudad

Eres tú, solamente tú

Yo sola espero que los mientos soplen a favor Que los fantasmas del pasado dejen de sobrevolar

Que no se cruce en tu camino Algo más tentador que nuestra flecha

Siga intacta en la misma dirección Que mi carnet te loquezca y te bruje mi sabor

Que me sigas provocando Siempre es de temblor

Brillan en mi pecho 100 mil bolas de cristal Brillan cuando llegas como luces de el ciudad

Eres tú, solamente tú

Brillan en mi pecho 100 mil bolas de cristal Brillan cuando llegas como luces de el ciudad

Eres tú, solamente tú

Corazón de oro, yo ya te encontré Como un milagro, ven y acércate

Eres tú, solamente tú

Corazón de oro, yo ya te encontré Como un milagro, ven y acércate

Eres tú, solamente tú

Bueno, los Diegarros llevándonos directamente a la pista de baile

Con esto que se llama 100 mil bolas de cristal y que fue la primera de las canciones que

compusieron

Para acantilados, un nuevo disco, un album de amor con el que recorrerán todo el país

A partir del próximo 1 de noviembre ese día estarán en Murcia, el 17 en Málaga, el 18 en Alicante

El 15 se van a Valencia y en diciembre, los días 22, 23, 29 y 30 por este orden

Pasaran por Santiago de Compostela, Santander, Jijón y Bilbao

La pasada semana del sábado pasado, los Diegarros estuvieron en el típico programa de Radio 3

Y nos contaron cómo fue la producción de la que se encargó Leyva

Los piegas de tus labios, el alcance de tus faros, el miedo desaparece

Nunca hay un motivo claro, solo ruido en el rellano y polvo en el taller

Túmbate en mi vientre y luego tapate en los pies

Cójame bien fuerte hasta que lo puedas ver

Caminarte las hojas sobre nosotros

Nosotros caemos después sobre los sombreros de otros

Ante los ojos de todos, no es la primera vez

Mientras tanto nuestra estela detrás

Sigue dibujándote las arañas

Mientras tanto nuestra sombra detrás

Solo es una mancha desgastada

Hoy todo está cerrado, han llamado unos extraños

Y no ha querido responder

Nunca hay un domingo plano

Nos gritamos como hermanos y hacemos algo de comer

May the stars lovely keep you
In this dream
Till you wake
En Good Lord, is she really real?
Got the scene, she's my lover, yeah
And my heart isn't made of steel
Is it made of steel?
Got the fire to the river, yeah
Good Lord
Make it sharp in danger
In the sea of the evening
As the moon comes to play
And take your time, little angel
Stop, let's change to the painter
Make them see what I say
En Good Lord, is she really real?
Got the scene, she's my lover, yeah
And my heart isn't made of steel
Is it made of steel?
Got the flame to the river, yeah
Good Lord
En Good Lord
En Good Lord
En Good Lord
En Good Lord
Landry folded in a bag
Underneath a chart of price per pound
Quarter of a machine out of order sign
Open on holidays
Used to be a corner with a mural of folks
If you would see walking around
Used to be a shop where a guy could fix
Anything that had broke down
Used to be a man who I see around
Used to be my pal
But I just heard the news
That David's dead
Still trying to wrap my head around
I've paid rent to the same Lord of Land
For ten plus years and now

And tired as hell of liver
Life this way
Faces in the hallway changed
And you know who to let in and out
No one says hello or meets your eye
So-called friend who only serves
Let's hang out if he runs into me
He serves next week and I see him in five
I remember parties where people would dance
To rock and roll all night
I remember parties where people would show
Up just to start a fight
I remember nights when we did both
And I remember what he wore
I took all his dress into keel of grin
And burnt for mess when you walked in the door
Can't collect those making rounds
After dark and I can't hear them clink
I just drank and it's money in the bank
Dizzy to Michigan
Witnesses just rang my bell
Said a day when I was sleeping in
Is that why the magazines call the wake
And you sabach
Sabach sobre esta canción
Dice que es un retrato de la manzana
De la ciudad de Nueva York
A la que llamó hogar durante más de una década
Cada línea dice es una especie de recuento
De las cosas que eran cambiado en ese tiempo
Y que puede decir que el fallecimiento
De David hizo que algunos de esos cambios
Fueran mucho más evidentes que
Antes Davis dead
El nuevo de And you sabach
Por cierto, And you sabach es ser
El líder de Parked Coast
Nuestros siguientes invitados son
Velvet Crush
Están de gira por nuestro país
Oh, it's too long
Suffer as the tears
Finger on and on

Miles and miles away
Hold me up when I'm gone
Hold me up when I'm gone
Time down the road
Nothing much to show
Suffer as the tears
Finger on and on
Miles and miles away
Hold me up when I'm gone
Hold me up when I'm gone
Touching down and out of sight
And being found to be alright
Hold me up when I'm gone
Hold me up when I'm gone
Hold me up when I'm gone
Life on the phone
Wasted space at home
Suffer as the tears
Finger on and on
Miles and miles away
Hold me up when I'm gone

Well, that's okay
We can try again
Another day
Do you feel the same breeze?
I feel lifting you up
Lifting me up
Lifting us up
Cause everyone can fly
Everyone can fly
Everyone can fly
You just have to try
Turn out the lights
And don't be afraid of another night
Do the promises you couldn't keep
Make it hard for you to sleep
Well, that's okay
Everybody makes the same mistakes
As the stars shine the night away
Let them lift you up
Cause everyone can fly
Everyone can fly

Master Piece - 11/10/23**

Everyone can fly
You just have to try
Did you ever stop and think when you were 20?
You'd be where you are today
Isn't it funny how things change?
Things never stay the same
What a shame
¡Suscribete!
Get the grade I can see you
Turning a greener shade
Do you feel the same faith I feel?
Let it lift you up
Cause everyone can fly
Everyone can fly
Everyone can fly
You just have to try
You just have to try
You just have to try
Everyone can fly
You're my fire
Speak only when spoken to
Pure devotion
Make sure that it doesn't bruise
What a shame, shame
It's a shame, it's a shame
Game in the tent of a lion
All the same, same
Different names
You're gonna change
But I'll swear that I'm trying
I feel schizophrenic
Hepoenic, romantic
Size of the pain
Hepothetic, drinking gasoline
And calling me the flame
Baby, on my hypocrite
I'll take you to the grave
Oh, what a shame
Tell me sweet things
You just have to make me back
I'll learn to like it
Or at least that's what you said
What a shame, shame

Bueno, ahora que Churches están de celebración
Con motivo de los primeros 10 años de su debut disco gráfico
Ella, Laura Mayberry
Anuncia a nuevo disco en solitario
Lo que estamos escuchando
Es una canción que llegaba después de I awake
Que se presentó en septiembre
Es esta que nos flipa, se titula Shame
Dice ella que lo de what a shame
Lo dice de una manera sarcástica
Porque tiene como un doble significado
La pena que sientes interna
O internas tú misma
Y la pena que sientes cuando ves que todo
Cambia
Bueno, esto se llama Shame
De Laura Mayberry
Resulta que Churches es una de las influencias
De no drama
El nuevo disco de Cube
Que este sábado presenta en el típico programa de Radio 3
Que ladre que griten
Hagámoslo una vez más
No necesitamos nada
No paemos de bailar

Don't you must have me
I want to do it so well
I could stop this shit
But you would never tell
Show me the camera
But you have
You live too much for yourself
And you know it's time
Sooner or later
Everyone in your life
Is passing you by
Isolation
In the dark
