

[Transcript] de volksjury / Aflevering 114 - Latifa Hachmi

Welcome to episode 114 of The Volksjurie.

We are Laura and Silke.

Everything good?

Yes, we do.

Yes, yes, yes, very good.

Very good.

We have an intense end of last week and weekend together again.

Yes, but fun.

I mean, super fun.

It's just that we finally have a social life.

And we're living our best life.

It's summer.

It's the festivals.

And we've done a lot of things in the past weeks.

In those ways, people really react to my Instagram story of Safa Mayu.

I mean, what is your level?

And I'm like, no, I've done everything in the past years.

And you even said to me, I think I'm going to get a burn-out of too many fun things.

Pleasure.

Too much pleasure.

No, that's true.

I was with my family at Bruce Springsteen on TV Classic.

It was super fun.

We went to the show together at Pommelin Thijs.

Yes, with me, not with your parents.

No, not with my parents.

They would never.

But Pommelin prophesied with his album.

Yes, there are good slides on it.

I think it went well.

Roma was a sauna.

Yes, but for everyone who was there.

How much sweat did you lose on the scale of 1 to 10?

We died.

Finally.

Finally.

And I was on that good stream.

That was Donnerdagabend Pommelin.

Friday I went to Grenzrock.

Because someone from our team, Jason, played there with his metal band.

I was still at a metal concert.

It was the last performance.

So I thought, I'm going to put this guy under the belt.

There was firework.
It was fire.
You stood in it with me.
And I was like, that's exactly from Metallica Vibes.
Yeah, aiming high.
So that was great.
Next day, we went to Harry Styles.
The man, the legend.
What was that?
I'm just going to give myself my own fault.
So a quarter of the concert begins against Silke Wittgen.
Harry, I feel he is so hard.
Love is Vibe.
But I don't feel attracted to that.
And I was like, you really don't know what you're talking about.
And I was like, yes, yes, yes, yes.
He was on the podium for a minute.
I was like, I have everything back.
What a show.
Yes, yes, yes.
It was also very fun.
Yes, just that feeling of being at a festival,
shining sun with friends.
Yes, I live for these kind of things, for the summer.
Okay, it's hot in the summer,
that's where we've already talked about it last time.
But I do take it with me.
It's like, I can finally be outside.
Yes.
We also asked last time,
what was your time during the weekend?
You reacted to Massal.
My conclusion is,
we would all be super good friends.
Your weekends are all very nice.
I took one out,
because this was really a hilarious conversation.
I received, or we received,
a follow-up message from Lena.
My weekend.
I'm 40 weeks pregnant.
I went to save the delivery.
But the baby was too long, full.
I'm three days in a row,

and with this temperature,
I gave it up.
So I'm just going to listen.
So we send.
Oh, a lot of success.
Merci.
How much more do I have to puke and sweat?
I have no idea,
because I'm already at a maximum.
So we think,
strength to me.
And then there was an update.
Halfway through the delivery,
I still had to stop listening.
I didn't come up with a follow-up message.
My baby started,
and she became more intense and more intense.
The next day,
I fell asleep.
So that's what you did during the weekend.
Hilarious.
Yes, it's nice that we're still
in some weird way.
I'm worried about the baby
who heard our voices first.
Yes, there are a lot of babies
who are already in the belly,
with who we are.
Maybe within a short time,
a short time on therapy starts
for all those children who are born with us.
That's going to be necessary.
Silke, okay, I've been saving this story
for a long time.
Yes.
You've been really hyped all week.
Yes, so now it's going to fall apart.
I've made a very funny story
with my family.
Over time.
Over time.
It was a bit boring,
they didn't see me.
And I thought,

I'm going to save myself
on the podcast.
So we have a family WhatsApp group,
where my whole Hilarious family is in.
And there's a photo inside.
From...
sent by my father.
I'm going to take a picture of your car,
so you can join me.
This boy has flown inside.
What do I have to do?
So on the photo you can see
on the kitchen of my parents,
a yellow park.
Beautiful.
Nice animals.
And as you may know,
my dad went on a pension.
So that man is home.
That man is also a very...
What else do you have to do?
What else do you have to do?
He's a very big animal lover.
So three minutes later,
he had the best name.
Chip.
Good name.
A few minutes later,
the first videos from Chip in the House
came out.
He gets food.
Chip, who is moved by the house.
My mother was in a meeting the whole day.
So she hasn't had anything yet.
And I don't think
my mom is the biggest fan of birds.
But in the meantime,
there was a bond between Chip
and my father.
They did everything
to get Chip back at home.
I believe that.
I believe that.
I want to emphasize that.

So in the afternoon,
in a village group,
there was a package
from whom?
From whom?
From whom?
But there was no response.
So,
my family does what they have to do.
They buy a bird's nest
in their own hands.
And they buy a bird's nest.
And they eat seeds.
And Chip is suddenly
a member of the family.
My mother has a hard time with it.
She didn't have eyes
to take a little child home.
So no bird.
So she really threw herself
as a detective.
So she looked at the band
from the park.
From Chip.
From Chip.
Oh sorry,
because she is now part of the family.
So they looked at the band
and they can trace them back
to Chip's quaker.
So they hoped
they could bring them back
to their family.
But the quaker
couldn't find the owner
back.
No idea
if it was a bird's nest.
I haven't seen it yet.
I only get videos
from a flying paratrooper
in their house.
So with this one
I have a new family member.

His name is Chip.
And there is a bird's nest
bought.
But imagine
that the family,
the real family,
is what you say.
Yes, yes, yes.
It will come true.
Yes, but that is
discussed.
My mother also said
OK, we are going to
go to the asylum.
We are going to bring
a bird.
A bird's protection.
But
there was an emotional
shanty next to the other side.
Because he was like
Yes, but you know
still
against my mother
that he is going to
be shot dead.
Because in that bird
there is no room.
So we
can't let him go.
So there was
sort of an emotional
shanty on my mother
so that the bird
had to stay.
Where did he
read it all?
On how to deal
with your paratrooper.
He sent me
a message.
I just read
that a paratrooper
is better with two.

So there is a chance
that there will be
a second chip.
But I'm not there yet.
I'm not there yet.
He also read
that you can
open the bird well
so that the bird
can fly freely
in your house.
So that's what
is happening now.
So you get photos
of that bird
on the seat.
That bird
blooms.
That bird
is going to
fly everywhere.
In his little bird.
So he is
completely taken
by the family.
I have
some questions.
With this
hour
started.
With this
hour
started.
So luckily
my parents
have a roof
but they also
have a
flight window.
So the thing is
of course
he says
that the bird
does not

fly in the heart
and that
if he goes
back
and that's
how it is.
I'm sure
that the
house
is since
chipper
is
vacuum
and that
there is
no
room
and do you think
your mother
is going to
contribute?
Or
she has
little choice?
She has little choice.
Here
she is pushed
in one direction.
She has
the disadvantage
that she
could not
intervene in
the meeting
the whole
afternoon.
And my brother
and I
jumped
on that story
and
directly
to the
side.

Yes
I
chose
the
heavy side.
Chip
is now part
of the family.
We are now
one big family
with
four children,
two
connections,
two dogs
and a
parcel.
I think
that should be possible
at this time.
We are
23
and 23
mother.
Get used
to it.
And
is there already
an eventful name
for a second
child?
Yes
But
the board
has not accepted
the board of the family
because Pino
is associated
with the blue color.
But Pino
is also
in other parts
of the world
yellow.

Yes
So
maybe
when there
is a second
child
we can
put that
on the board
and prove
a whole power point.
Maybe a power point
but I
haven't met Chip
because
I haven't met Chip yet.
Okay
I also want to get videos
from
I have
100 videos
but I couldn't
send them
because
from now on
my mother
is a little bit
stuck in
the path she
is now going
my father
is my pension
and I
promised him
that I would
say this
but
the man
has too much time
because he
literally adopts
every bird
in the
house

so I
wouldn't doubt
that in a
short time
other animals
would also
suddenly start
but
the man
had promised that
after his pension
he was going to
keep busy
and
he
has
such a
test
for
asbest
an asbest
test
so if
you
have to sell
in
Flanders
house
you
go to
www.expertise.be
he is trustworthy
he has a dog
he has a parque
when you
sell your house
and you need an
attaché
I will
go to that website
yes
there is
still no photo
of Chip

on the website
I took
the photos
from him
and I am
really
satisfied
I really
said
do
a little bit
of a
life story
if you do
anything
it would be
too good
too good
ok
so that was
the life story
that Chip
who is now in my family
welcome Chip
new mascot
Yes
I will
definitely share a picture
of him
in the stories
I will
keep you updated
whether
he still have
a brother
or sister
or
something
different
yes
Oh, sorry.
You're from the area of Noah, right?
Yes.
He might be Noah.

Okay, look.

And then the next thing is, is it a sector?

We'll see.

I'm going to keep it in the go.

Alright, good.

Give me a tip.

Yes, I have a tip.

It's been a long time since I had a tip.

And I really enjoyed the reeks of Everdrop and Arnold the Kid, who are part of Iron Man.

I'm glad you're here.

And I almost have to win again.

I'm happy.

I'm happy.

But for the people who don't know yet, I can't spoil anything.

It's all in the media, or if they haven't already.

But I've already seen three episodes.

I'm now waiting for the episode to be effective.

But it's just so cute.

It's so nice.

The friendship between the two brothers is nice.

They're funny, not together.

And then there's this thing, I really like watching shows where people don't have to do anything.

You'll like that.

I like to watch that.

So I'm really looking at my mouth.

Watching shows like that is impossible in my eyes.

So that's why I'm doing it all by myself.

And it's just great because they're more ready for stupid things.

They're hilarious, recognizable.

It looks good in one.

It's well filmed.

I don't know how a videographer calls it.

But it's great.

It's a great edit.

So watching it on YouTube, I don't have to say it yet.

It's so good to watch it on YouTube.

And then I have to think back every time about Rob's speech.

While I was there.

Oh yes.

A little shout out.

It was a really beautiful speech.

We've been really quiet fans so far.

But it's good that we're talking about it.

So I thought, let's put it in a group.

Let's put it in a group and take it with us.

Voila.

Then we have to talk about Hello Fresh.

Yes.

Our friends.

Yes.

The big friends who sponsor the episode.

Because they're more of the party.

And it's summer with us.

Because what I think is that you...

We have the pressure again.

Yes.

And what I like is that you...

You make plans.

So you can say, I want that box.

And then you have to sit in it so many times.

And then you just eat for...

I'm already there.

I'm already there.

And I really like that I can eat the same thing for two or three days.

Yes, you do that.

You cook a lot at once.

So I say to Hello Fresh, I'm not going to order that for two people.

But for three or four.

And then I don't always have to cook.

You can often cook something fast.

Or I want to cook something more.

But sometimes I also like it to cook once a week.

And that can also...

If you do this.

So I think...

Yes.

So some meal prepping, but then with Hello Fresh.

Look good.

Yes.

And I can also imagine people now in the summer vacation.

It should also be convenient to order a week on vacation.

And then order a box quickly so that you don't have to go to the store anymore.

When you come back from vacation.

Yes.

It also seems to me a handy feature.

Very, very.

We've already talked about it.

They have an app where you can do this all at once.

Yes.

And also handy.

If you don't want to eat meal prepping, there are more than 35 different recipes.

You can cook every day.

It can all.

So for everyone.

Well, so do you want to try this?

Then use the code HELLOJURY and save 85 euros on your first four boxes as well.

And new half freshers if you have your membership up more than a year ago.

So HELLOJURY.

All in capital letters.

All right.

And then there's our guys next to us.

Always.

You can't see this.

Our new buddies.

I think it's already ...

Or I shouldn't have put away that I'm a member of the Arup sect.

Yes.

I had kept me on the background the last time.

And I have to say ...

I'm ... I'm there too.

I'm also a member of the sect.

We promised last time.

We tried a lot of flavors.

We made a personal top three.

That differs from each of us.

Yes.

So for me on the third place of the three that I tested is apple.

Okay.

Because I think ...

There are people who will like it.

But it has more of the taste of the lollipop.

Taste apple.

And give me now.

Yes.

There you go.

But that might be too sweet for me.

Too sweet instead of fresh.

Exactly.

On the second place is Yuzu rosemary.

I have no idea what Yuzu is.

Yuzu is a Japanese citrus fruit.

Okay, fine.

And on the first place is peach.
Because I like to drink iced peach anyway.
But now it's just water that I drink with the taste of peach.
So I think that's great.
Great.
Okay.
On the third place is iced peach.
Oh, okay.
Yes.
A bit of the same reason.
I really like to drink peach in my drinks, in my yoghurt.
So it's recommended to drink water.
On the second place, when the bag was opened, she said,
Lukas, what the fuck, you're not going to drink.
You're not going to like it.
Namely, cakis.
Oh yeah.
That's not only liqueur.
But you have a bit of a darker grenadine of cakis.
But it's also used to do my kava.
That's what I know.
For a Kierwael.
Super delicious.
I usually don't like it here.
And on the third place is lemon basil.
Love it.
Love it, okay.
Do you also want to be an Arab sect?
That's possible.
And you can use our abbreviation code for that.
That's the volksjuritine in big letters for 10% abbreviation.
That's the volksjuritine with 10% abbreviation.
Okay.
Today's episode.
I was allowed to choose.
This is going to sound a lot, but it's something I've been fascinated with for a long time.
The information we're going to talk about.
Not this matter of view, so it's very tragic.
Maybe we're not going to tell too much.
We're just going to start.
Time starts.
We're on August 5, 2004.
And at 13 o'clock the phone goes to the police of Schaarbeek.
The call comes from the Waalemstraat.

And they tell me that a woman has become unwell at home.
The police are on their way to help services at the same time.
And when the agents arrive, the help services are all busy.
They give a heart massage to a young woman, Latifah Hachmi.
She's in the living room on the ground.
The agents arrive.
Her whole body is under the blue spots.
She had a heart attack.
And when the agents arrive, they hear a lot of loud music.
It's the way they can describe it best.
It's someone who is quoting some kind of parlando verse.
It seems that there are no refugees in this apartment.
But there are a number of strange items that can be found back.
They can be spread over all rooms.
There are water bottles of 5 litres.
Some of them are full, others are empty.
In the bathroom, there are hairs everywhere.
So in the bathroom, on the tiles, on the ground.
The agents speak to the man.
The 26-year-old Latifah's man.
His name is Murat.
There was a problem.
Why did you have to call the whole service?
And he says, look, I left here this morning.
She had a headache.
Latifah had a headache.
She went to the bathroom to help with the heavy headache.
And I just met her this morning.
And that's why I called the whole service.
She was unconscious at the moment I arrived here.
Latifah is called to the hospital.
She called.
She brought her.
And she's taking care of the patient the same evening.
The doctors there talk about a suspect.
And the parcel of Brussels is also going in there
and decides to investigate the case.
Yes.
And the doctors immediately go to the hospital.
And they immediately take care of the patient.
The first thing they see is that Latifah has symptoms
about her whole body.
And there is an article by Humo, among other things,
a very clear article about the case.

It is written that Latifah's body was saved
from bruises or blue spots, even her face.
Now, what seems to be the cause?
There are hundreds of shots with a bot foot.
The doctor thinks of a baseball in the first place.
But Latifah died because of a lot of bleeding.
And her lungs had water.
And that would have been the result of a terrible dip in water
until she almost got stuck.
Now, the question is, of course, where did Latifah die?
But they can't say that for sure.
So, the doctor says that in the days before her death,
Latifah was beaten more than 100 times with brute force
and in a huge, violent way.
She had a lot of heart-rhythm disorders
and in a coma-like state, only she would have died of it.
Now, she almost got drunk.
The doctor said, near drowning,
in the English language,
because Latifah started breathing in water,
which would only have contributed to the coma
and her heart-rhythm disorders.
So, that's not good at all.
So, Murat is brought up again.
And she is questioned for hours.
And then, Murat gives the question
that he and Latifah have made a group
on a group of Islamic exorcists.
And Murat says during those questions,
my wife was possessed.
The blue spots on her body are the work of the devil.
All right.
Flashback, a small biography of Latifah Hachmi,
the family she grew up in, and so forth.
She's the youngest of four children in the family Hachmi.
It's a family of Moroccan immigrants.
The only girl had three older brothers.
Her father was named after the princess,
and she was treated by her mother,
but also by the three brothers.
She was the apple of the family.
The father was Capor,
and he had the mother of Latifah in Brussels.
She was a hubby of love,

no one arranged her hubby.
She was not very broad,
but she had everything she needed.
Latifah's parents were religious,
but not strict.
Latifah's brother convinced that he,
as a young adult,
went in search of the meaning of Islam for him,
because his parents were not really working with him.
Latifah's brother, his name is Fuat,
brings up good memories.
Susanne tells her,
that she never knew that she was a cat.
She was the only one she really wanted.
She was her own family.
She referred to the TV series
The Little House on the Prairie.
That was the kind of family she had in front of her.
Fun fact, I'm called Neralora Ingels,
one of the characters from The Little House on the Prairie.
So my mom will recognize her here.
Latifah grew up to build a warm, real family.
At the age of 12, she went to the middle school,
like everyone else,
and she came to a community school in Wollewee.
That's a community in Brussels.
Fuat clarifies,
that she and the community
meant that there were autochtones in the classroom in Belgium.
Latifah followed a scientific direction there,
and everything went very well.
Until Latifah came to her puberty.
Yes, because Latifah makes it clear
that she wants to wear a headscarf.
Fuat immediately said,
like other people,
she wanted to be a punk or a god,
so she wanted to wear that headscarf.
The profiler, that's what you do when you see it.
But the only problem was,
at that school you didn't have to wear a headscarf.
Fuat tells her,
and her father,
please let Latifah wear that headscarf.

But that was refused.
And Latifah didn't want to wear it either.
They said,
I want to wear that headscarf.
Her father said,
do it at school,
do it at night,
try to find some compromises,
but Latifah continued to like it.
What made her change from school?
And in the article,
another article that we read,
I believe it's from the standard,
Latifah leaves to a school in Schaarbeek
and it's described as a ghetto school.
No, the words of Fuat.
And he says,
if I remove the education system
and the Belgian education system,
then that's it.
I'm sure Latifah had an open mind
if she could stay in Wollewa.
Because he thinks that headscarf
was a kind of moving phase.
If they put that down again,
we can't say anything about that.
And even if it's not like that,
but it is indeed education,
education is key in everything.
The story goes,
spoiler alert,
it's a bad ending,
but education is so important,
you can mean so much to young people,
make sure they have an open mind
in their middle school.
That's what it's really about later.
In Schaarbeek,
in that school,
where everyone plays the role of headscarf,
what is extremely different
for Latifah is that
there is a lot of knowledge.
Here she goes over to Naya,

so she goes more that way.
Now,
Fuat is actually of the opinion
that her world actually became very small
from that moment.
She married a 17-year-old
with Murat,
who was a distant relative
to Latifah's mother.
And that would also be a lovely event, of course.
Now,
Fuat tells in the article
that Murat
was still a distant relative
of her family.
Fuat says,
I couldn't believe that Latifah
became a distant relative
and nicer.
He thinks, of course,
that she could have become a scientist.
Of course, there is nothing wrong with both,
but I understand that
there needs to be frustration
with Fuat, of course.
You see, she changes from school
and she gets the feeling that
she is also a distant relative.
Yes, she is also a distant relative,
so of course she depends on the fact that
everything is changed until she goes to that school.
I understand her point of view.
Yes, and she also says
that Murat will follow the evening lessons of France.
But
Latifah shouldn't go to the evening school
because it was a mixed class,
boys and girls.
But Fuat says
that Murat
will follow the evening class.
Why don't you do that?
And she doesn't.
But Latifah became very fond of her brother

and he kept his mouth
for the love of peace.

Yes.

Now, what has changed
when Latifah went to Schaarbeek?

She has reached the stage
of a certain non-school association
that is now known as
the VZW La Plume.

As you can see
together with
Muslim sisters.

La Plume was founded
by the 52-year-old
and I hope I'm going to say this
Abdelkrim Asnagoui.

The 52-year-old ex-stimmerman,
ex-foreigner,
ex-installateur of Jackpots
in Café.

He had a lot of life, this man.

And in the 1980s
he was from a turbulent nightlife in Brussels.

And he made
a switch
to religion but
in a fairly extreme form.

He grew his beard
and would wear a short pants.

And he profiled himself
as a Koran teacher
and an Islamic genius.

He had no education
but he would say
I'm self-taught.

He specialized
in one specific type
of Islamic genius
which is Rokya.

In the broad sense of the word
it means Rokya, the traditional
Islamic genius.

He didn't
go there

at all.

There was something very specific
in his approach
and that is exorcism.

He used

a lot of equipment
to genius people.

He had an assistant
to the Muslim-based Belgian Xavier Meerd.

He took his new name

Selim.

And the two met
by the extremist Muslim
milieu in Brussels.

I found out a little bit about Xavier.

Yes.

He is the one who
set up the VZ2.

It is known by Abdelkrim.

But Xavier set it up
and he specialized in his 14th.

It was all fine for his mother
who said

he never had problems with Xavier.

He thought about his mother
for a very long time.

A well thought out choice.

A well thought out choice indeed.

But in the end he would
turn the well thought out choice
into an obsession, according to his mother.

Xavier doesn't have a social life anymore
but because of the VZ2

he goes back
on the ladder.

He gets to see him again.

He is very interested
in the traditional genesis
but it is not based on a teaching

but it is written
on his own interpretation
and fantasy.

That is always a good start for something like that.

Exactly.

Fouad describes
the VZ2 as a kind of disease
and I don't think you can see that.
He claims that Latifah
was looking for her until evening
and that outside
he almost lost contact with her.
We as foreigners
didn't really know what was going on there
but it was clear that the influence
of those two men on those young women
who were a part of VZ2
was enormous. They were isolated
and they were easy to manipulate.
Everything was still
due to the information
about demons, witchcraft,
god services, fanatics.
Not really a healthy environment.
Latifah
was a part of VZ2 La Plume
but she wasn't really looking
for solutions
with the Islamic genesis
until she had a problem
Yes, I wanted to say
that she was in the first session
just for god's lessons and arabic lessons
so she wasn't really dealing with
those genesis.
No, absolutely not.
But suddenly a problem came
to herself
where she was
with two men
she had a problem with children
and they didn't get pregnant
so she went to
Xavier
and Abdel Karim
Abdel Karim
Yes, I thought that was Abdel Karim
but
Abdel Karim, indeed

I see different names
because further in my research
I also see Abdel Kader
I hope that we don't have
Abdel Karim.
Abdel Karim, yes.
So she goes to those two men
and they let her know
and convince her that she was pregnant
and that only a devil
could save her.
And Murat really enjoyed that
she wanted to have
a different idea in the beginning
but Latifah was convinced
and she believed herself
that the devil was in her
so Murat went with her
to help the devil
and they started
two months before her death
and
Latifah was
already in the war
with the first treatment
she wasn't so good at reacting
Murat actually called the parents
of Latifah
who were in Morocco at that time
they were back
then Latifah at her house
in the society of Abdel Karim
she had other assistants
and
for what she said
we can see that she was thinking
about the movie The Exorcist
she was apparently tied to hands
and feet
she had to drink a lot of drinks
she was completely weak
she had stupids
but for everyone in that house
it looked normal

no one was there
and then Abdel Karim
started to read
now Latifah's father
Ramdan
excuse me
he really said
everyone outside
he wanted to call a doctor
but the female assistants
who were there
also under the leadership
of Abdel Karim
actually refused to leave
because Abdel Karim said
a doctor will only send Latifah
in psychiatry
and then she will stay for the rest of her life
so she asked
Latifah's father
to let him do what he did
because he knew what he did
but the father
said
and
Latifah's parents
stayed there for 4 days
to take care of her
non-stop
she gave her vitamins
she ate a lot
she really took good care of her
and she will come back
on top
now Latifah's father
asked Murat
to take care of Latifah
along with a psychologist
and then they were on the advice
of the psychologist
they went to France
for 2 weeks
to be in between
and Murat also promised

to leave Latifah
but
he broke his word
yes
flash forward
to 10 days before her death
Latifah decided
to take a new attempt
to get rid of her demons
and
she went back to Abdel Karim
but he was not in the country
and not available
but they are being friendly
Safiye
who had seen enough
how teachers are
and he could do it
he also wants to be in life
I can do this
but also in that way
imagine
that they would be there
that I learn something
I read a book
podcast maker for dummies
and I say to you
I think I can do this
yes, let's do this
and we did it
I mean
I like that people are curious
and interested in life
but when it comes to genius
there are people who studied
and they can do better than you
sorry
without doubt
I mean
no, I was giving bad examples
there are no other examples
don't play with your health
it is clear
look at our family

go to a psychologist
great advice
but Latifah
unfortunately is so convinced
that he is with demons in his body
and Abdel Karim
says, Safiye Meerd
he is going to help you further
and
Murat, the real genius of Latifah
he decides to take a new attempt
and he screams Latifah
from that moment
from her family
he makes sure that there is no contact
her parents
would have stood in front of the door
in the period he followed
he never did it openly
he really made sure that Latifah
could work alone with her demons
and her demons from the driver
we are ten days
before her death
and Safiye Meerd
is in the apartment
to drive the devil out
how is he going to do that?
what does he have with him?
he has Quran texts
which he wrote
on a piece of paper
or plastic
then
he put it in warm water
so that it
dissolves the saffron
and that dye
Latifah had to drink as much
as possible
and then
there was a bath
with hot water
that's where the Quran was put

because that would burn the demon
Murat has decided
that everything
has been put into place
and
I can believe that
they really want to do everything
to solve the fertility problem
so until then
we have a devil excursion
Safiye Meerd
has two female assistants
and she lets me
do the dirty work
we have Jamila
she had a devil excursion
and since then
she has been specialized
in finding the demons
and she also helps other victims
this is really
a standard Stockholm syndrome
that's what Jamila is
and what she has to do
she is convinced that
there is a button in Latifah's skull
and that there is a
really strong demon
locked up
so it takes
so much time
to break two fingers in Latifah's skull
and then
she lets the fingers in the skull
and massages them from inside
the button in her skull
to get that demon
if Latifah is not in the bath
and no brown water is drinking
she gets a headphone
tied to her head
I think
where the Koran verse
is recited

when she wants to sleep
the headphone is also busy
so
how they work
is also clear in that article
of the humor
and in that
later on the police complain
that in the first instance
we were only offering
but we noticed that it has little effect
so that's why they started with the bath
and he says that
sometimes Latifah doesn't want to sit in the bath
sometimes not
we had to swim with the three of us
and it is clear
the water was hot but not cooking
thank you Xavier
and what is also clear
is that Latifah
was tied
in the case of the demon
in her head
now they think that
with a spider web and a camera
a centurion has happened
he says
yes it happens that we lower her head
but that was very short
but really very short
and Latifah tried to get up
but Xavier says
that was her survival instinct
and the devil who doesn't drink water
and I agree that he did it
because
he voted for it
and it was the devil who came up
he connects his actions
to the devil
and he forgets that
there is a person
and a body where

there is no devil
but he speaks his actions well
to say that he tried the devil
and he says that Latifah
was often exposed to such a session
but also
sometimes they didn't react
and really had to be helped
by the bathroom
where they were put in a seat
and they put their headphones back on
but all the officials say
we have never beaten her
don't forget the child had knives
very nicely
Xavier still has a
addition
and he says we have never beaten her
there was a bitstock
but I took it away
because I thought it might seem suspicious
but I didn't agree with that
it turned out to be a toilet
which was covered with
Koran verses
and he says I sometimes
have a body part
but I didn't agree
I think we now know
where the blue spot comes from
Latifah sometimes also
resisted against the attempts
of Jamila to use her
what did Jamila do
then she opened the can of Latifah
now
eating
so we know that she had to drink
a lot of water
but she didn't
drink more than 2 liters of yoghurt
per day
because
she didn't use any food

but just the bad substance
so that's why she got the yoghurt
served
we didn't get much
than a white paper
a bit like lime
and Xavier says
we know from experience that it's magic
so we went there for 9 days
because if you eat your yoghurt
and you cut a white paper
then it's definitely duffels
that's definitely duffels
so we went there for 9 days
Latifah the child still reacts
I think there was
23 I don't know
half unconscious
with still the head up
plastic
of course under
but the exorcists were
for sure that it couldn't last
longer before the Jins
as it's called
would give up
now Jamila said
I noticed that the Jinn
the demon in Latifah's belly is poisoned
which is good news
because then they can get children
who are sitting in their eyes
and also one more dangerous
who was in a cage
so suddenly the fingers
deep in Latifah's mouth
and then it's
August 4
the day before Latifah's death
yes
it's been quite a while
but this is
the highlight
of the devil edition

Xavier
asked Murat to
let a bath
to put Latifah in there
and to let her drink a black soup
it was a mix between
an oily extract
and that Quran water
and then Murat
the servant started
to spartle Latifah
Xavier took his beard
and
Xavier thought about it
it was so hard that I had to
do a great
she also drew a line
that woman used
in the last episode
to put her in there
instead of taking her out of the bath
they decided to
put her under water
and to keep her
so that she stays in the water
that's also why she's being tarnished
we didn't hit Latifah
but on the Jinn who was in her
and that's why she asked
what she did
to each other
Murat indicated that he
was calling the aid service
because it seemed that Latifah
stopped breathing
but that all the rest of the voices
were given
that the Jinn
would be the last force
and that's what she was doing
that she certainly didn't have to stop
there's still someone in the phone
and that's Xavier
that the situation is not going well

and he calls
who else is the teacher
Abdul Karim
that band is in Morocco
Xavier explains the situation
and he only has one question
for Abdul Karim
namely what should I do
when Latifah comes to die
you know what you have to do
to get out of there
but what if it goes wrong
and I don't know what Xavier
I thought the answer was
that I expected
if that happens
then you take your bullet
and then you're gone
great, that's the people you leave
the aid services
were eventually contacted
because Latifah stopped breathing
and when they arrive
Murat is alone at home
so that means that Xavier
has followed up the good advice of his teacher
together with the WC
to get out of there
something later Latifah's father
arrived
who was going to call for him
he saw his daughter in the morning
and that evening
he left
as we already said
in the hospital
now you already know
that Murat is known
so two years later
a group of exorcists
for the correctional court
were beaten and wounded
with the death
but

there were very light punishments
roll your eyes out of my pocket
yes, so I read it before
Xavier was 5 years old
and didn't have to go to the prison
his assistant was a few months old
that Latifah's husband
was 4 years old
and Abdul Karim
who, as they say, was morally responsible
was released
Fouad
the whole family
was angry
and he said
that the correctional court
allowed him to be arrested
by the lawyers
who said it was about a cultural abuse
owned by Islam
where an accident
happened
but Fouad didn't say
it was about a mental disorder
alcohol, beatings, beatings
Fouad, a platform, please
so the reason I wanted to make this episode
was because I wanted to talk
about exorcisms
and when I came to this
I was surprised
because I really
believe in exorcisms with the Christian faith
of course by all the horror films
that were made about it
so I found it very interesting
to see that it is about
religion, borders and so on
so we also
studied exorcisms
black magic
first in Islam and later in other faiths
in the article of Humo
they let the anthropologist

Philip Hermans on it
why not?
you are my favourite anthropologist
humo call me
my favourite anthropologist
was not available
Philip Hermans also wrote
a book
I think that the man just said
I would do a Xavi
because I know everything
but actually not
but he has deepened himself
in the Moroccan folk culture
and he wrote the book
the world of the gin
I also want to say
for everyone with an alcohol problem
that he thinks about gin
the drink is
I knew nothing about it
I took this information
as a case
really
I find it so difficult
so apparently almost all Muslims
it is a pity that you do not get an anthropologist
you studied anthropology
I think that is something for you
that would be for me
but I would like to read about it
it is also a lot of
rabbit holes
but in a good way
so I would read
something for an exam
and then I would be there
and the rest would not be taught
that would have been to me
I can imagine
apparently it would be good
if all Muslims believed
in the existence of gin
they are written in the Quran

they would be created by Allah
in which it is said
you have male and female jin
good and bad, believing and unbelieving
and also getting children
they can fly through walls
training in camps
sometimes they come to our world
and then they always have bad intentions
it is a bit
the culture of gestures
that we have
that is also described in Islam
the official Islam is very clear
they do not let black magic
they do recognize the existence of it
so
a bit like hard drugs in Belgium
we know that it exists
but it is not allowed
strange
people
go to people
who call themselves
deaf and hard of hearing
to let others deaf and hard of hearing
there was a very
very nice testimony
in the article
a woman who tells her brother
in the slaughterhouse of Anderlecht
and there was a woman who came to him
to ask a very specific question
that man was like
no sorry, not in our drama
but you want me to order it
and what are you going to do with it
where you are probably really interested
in how you make it ready to eat
for that you did not use that woman
because it was necessary for Hexer
they were going to make a drink
that would make sure that the person
you really enjoyed

would serve you as a deaf person
yes
I find it very fascinating
I find it very fascinating
so
where are they, they are everywhere
but why do you take the most risk
to get them in your body
that is in big rows
slaughterhouses and my biggest fear
the toilet
every day I go to a toilet
sit once
sometimes at home, sometimes at work
and now there is a cobra
in my vagina
that is the fear
also with me
and now I realize that
I am already afraid of the gins
you know, there is already one
in you
I don't want to make it ridiculous
but so they come to you
they also have
food preferences
they really like blood
and milk
I wrote three on it
that you know gins are
celebrity gins
I find it very fascinating
so you have
Aisha Kendisha
she is a very beautiful woman
she appears to be for men
but then it turns out that she has
lelechis and bouquets
you have Pasha Hammu
she is a male gen
that is very strong
and has a lot of blood
fuck him
because he takes care of

menstruation with women
and he drives people to
overweight
alcoholism and auto mutilation
I find it less funny than a beautiful woman
who suddenly has bouquets
and last but not least
I wrote down Um Soubien
she is also a fallen young woman
but actually she is old
she has slingshot
and there comes smoke from her nose
and she falls specifically on two population groups
pregnant women and small children
and she is going to sleep
because there comes under her bed
to sit down
a lot of muslims
no orthodox officers
they believe in muslims
they believe a little bit
but they like it
just like we believe in gins
and
it is actually only if
something goes wrong in their lives
that they will eventually
find a genesis
in belgium
it would mainly be for psychical diseases
and for general events
muslims have faith in the
classic genesis
I would like to say that
I have mentioned it
but the number of gins
is very different
compared to the Brom
that you have read
some Quran scholars estimate that there are
68 billion
so boy
look
who knows

but I would like to
because it is really
I was today years old
that I knew about the existence of a gen
so if muslims are
listenable
let us know
do you believe in it?
do you believe in gins?
how do you deal with it?
are there special things that you do?
I am curious
you said
that the real one
has to be recognized by the Islam
because
it has to happen
by a Quran
and that is important for this story
because we have heard a lot about
fulterings and martins
but actually
the demons, the gins
can be derived
but only by Quran
there is an article
in Scharebeek
because what has played out
we think more about scholars
who do not know how far they can go
it seems
to me that
recitation of the Quran
also seems to me something
but maybe I will interpret
because it is repetitive
that you come across a kind of meditation
that someone
who is psychically un-Russian
can make calm
and understand
where recitation comes
and to touch someone
I understand where

the non-traditional
is but it is good that
it is clear
that it is the one that helps
and all the rest
we have talked about Islam
but let's be honest
this is not just an Islamic
as you say
we will talk about the Christian
we have a few examples
where it seems that
it is very common in Christianity
as Paul Francis in 2013
on the St. Peter's Pines Rome
such as himself
a duvel excursion
when he put his hand on the head
of a man with a restriction
which is in the article
weird to react
I do not know what is meant by that
now the Christian
exorcists who immediately
put their hand on the head
that is one of our methods
we know that
so according to the exorcists
Paul Francis also
did an exorcism
now the Vatican
says again that the paus
just wants to pray for that man
but the paus
himself said
that the priests do not have to
pray for
the spiritual, historical and exorcist
to change that
and I found this
very strange
so we have here in belgium the website
kerknet.be
I am also going to look

and it is still on the cover
in a news article
to a lecture for exorcists
in the Vatican
that is an initiative of the
Saaserdos or Sacredos Institute
in cooperation with the International
Association for Exorcists
and there is kerknet.be
and more and more
there is an international association
for exorcists
they are there
I then
in the article of
HumoSaisen
then also called to the Abbey of Averbode
where there are
who are still
regularly asked
for exorcisms
so the interviewer asks
how many people have been
a thousand people
but now it is
much, much, much less
so they are still
asking and how much
right now when it is much less
come daily people
for an exorcism
what?
see, there is
so much more to come
and I didn't know that
I am really shocked
everyone has to do what they want
everyone has to believe in what they want
but this has nothing
to do with faith
and love and friendship
and the doubts
from the fact that
the word exorcism is missing

get out
Knakke is also going to ask
how is it at the Jodendom
if we are still going to go over
and then he says, look
at us it is not really about the devil
the so-called diboek
so you have to believe
that if someone dies
the person's goal will remain
but there are
in the case without it
where the goal can get
a second chance
to improve yourself in other people's
so if you have missed it
in your first life
you don't do it anymore
they say
you have a Sunday
without life and then there is
without a chance
it is a bit like Rat van Vorduin
exactly
now what is the feeling
when the diboek comes
to sit in another human body
is that you can get dreams
that don't seem to come from yourself
or that you can't even
place
but as you said
there is almost no exorcism
but they are going to talk
about the person in question
but in the article
it is said
I doubt if they are going to
organize themselves and sometimes
do a lot of exaggeration
so the person in the article
has interviewed
he says it doesn't
but Bonn of course never knows

what is going on
I think it is nice
that something like that comes back
in all cultures
yes indeed
so to make it really clear
that it is not only
in Islam that there is no
reaction from
you know
now the family of Latifah
to go back to that
they are obviously frustrated
they are angry about the
dirty stuff
that they received in the correctional
bank
and they say we just want
to go to Assizehov
and that those things are treated there
and indeed they get the chance
the case goes to Assizehov
and the case was then
qualified as a full-time
that was necessary to get Assizehov
we are standing there
Murat, Abdel Karim
Xavier and the assistant
Jamila, Fatima and Hayate
now Murat, Xavier,
Jamila and Fatima
are guilty
of following the death
but without the intention
to kill
Xavier was more responsible
for the continuation of the treatment
despite the deteriorating
condition of the victim
and the concerns he had
that is written in the arrest
both other guilty
Abdel Karim and Hayate
were also guilty of following

but they spoke more freely
about the serious circumstances
the jury members were
responsible that Xavier and Murat
were the two responsible for the
beatings they had before
then
the jury also judged
that Jamila and Fatima
had determined
that the victim was in a coma
and they then did not
call for the help
because they also made themselves
guilty of the crime
Jamila also tried to
make them guilty
while they were already
aware of what the
doctors said
as very dangerous
of course when you are
aware of it and you are still
going to use it, then it is the
chance that you also stick to it
after that the jury also
judged that Abdel Karim
came in June 2004
at the beginning of the session
and that he could not be responsible
for the death of Latifah
but
they also made those allegations
for Hayate and they said
that is not true
since July 29
they had no contact with the victims
or were they held back
so I think it is the same
so with her
they said
we already talked about it
I am going to start this petition
hold the word again

and I think it is
again wrong in the Netherlands
so
with Hayate
they also said
she is also not responsible
for the death of Latifah
because she had no contact
since July 29
and she died in August 5
so
on the Assisi process
Moura and Xavier
were sentenced to 9 years
for the death of Latifah
Jamila and Fatima
were sentenced to 5 years
and Abdel Karim and Hayate
were sentenced to 3 years
so
better
but not much better
families
of course
were deeply hurt
but they could start their raw process
and you would think
here it stops
and on the word
it is
Abdel Karim
who even tells
about his work
as an exorcist
because he is still on strike
he doesn't deny that
and he says in the article
I am constantly dealing with devil's intentions
people keep coming to me
I have already done more than 1000
and Minilem
minimizes his prejudice
but my lawyer
gave me that

the only thing I wanted to do
was to help Latifah
her parents were grateful
I am getting very aggressive
but I will finish
he says
when Latifah was in Morocco
I had advised her
to do the ritual medicine
but she would die in the hospital
and not at home
during the process I told the police
that you are welcome to visit
to see such a devil's intention
and I asked the hospital staff
to help
the patient
to recite the Quran
I am convinced
that I will be able to help so many patients
what the fuck
shut this guy up
this guy is Delulu
here I am getting angry
I am really getting angry
of course
I am not saying that
you are not responsible
but you are
very, very responsible
but this is so God complex
absolutely
and you just don't want to see
you don't want to recognize
that you did something wrong
and within that
you get the impression
that I am the one who has done
thousands of exorcisms
and there you go
we are sold
really terrible
you can see that it is not going well
and he is going to keep doing this

and it is going to be even worse
of course
yes, there are 999
well done
if there is one thousandth mistake
yes
not at all
especially in this
untrusted
there are always mistakes
the risks are so real
you know what the other 999
people are going to keep going
yes, indeed
and as you can see
extremism is just good for nothing
you see the family
of Latifah was good
she was good in that way
people who look at religion
in a very healthy way
what it is really good
but if you get lost
in radical circumstances
then it is just not going well
no
that's it
yes, it was a very difficult
thing
especially because it happened in Schaar
right next to us
and that it just
still happens
yes, because
this is read as a bad horror movie
but this is just recent
and reality
interesting, I am happy
that you can dive into
very certainly
thank you for listening
yes, thank you all
I thought you were saying thank you
also thank you, thank you for being here

Schaar did, with a lot of pleasure
love you all
bye babies
