

Welcome to episode 118 of The Volksjurie.

We are Lady Gaga and Beyoncé.

That's great.

Who are you, who are you, Benik?

Yes, there was a direct discussion about it, but I think that's pretty clear.

Is that it?

Yes, you are Beyoncé.

Thank you.

I don't want to claim it myself, but that's one of the other names against Beyoncé is Benik.

Oh, okay.

But if you're okay with that, that's just who we are, that's how we are, that's what our band is.

You have to just lick everything that I want to express.

That's how we work with it.

I had to decide twice about it.

But let's see how we ...

Yes, I'm going to explain how this is how we come here, except for Lady Gaga and Beyoncé.

Sorry.

But one of our listeners was to an episode of our listener, there was a small glitch in the show, Spotify, and instead ... So instead of our episode, but as an artist, instead of the folk jury Lady Gaga and Beyoncé.

Not bad.

Absolutely not.

No, no.

Absolutely not.

That's very, very bad.

There were a lot of errors.

And you also made lovey-dovey music.

I'm happy that we also have that kind of ...

I think it was a telephone or something.

That's the only hit.

That was the only possibility.

Good.

Yes, no.

I want to be happy with ... I'm happy with Beyoncé.

I think the mystery is also helped again from the outside world.

How is it?

Good.

Good.

Yes.

I've been away for a while.

Tell me.

Yes.

I've been to Italy with Lucky.
A little bit of a search between the two.
Five days.
It was fun.
First to Milan and then to Lagoma Giori.
On the plane, then realized that there was a writing out in our episode.
So that's the reason.
I always post live.
Every time you see an episode live, we'll post it together live.
And I do that because I'm very concentrated.
I can still see everything.
And now I had to plan it out.
Because I had to take a flight.
And then realized that I had planned it out with a mistake.
And I couldn't do anything about it.
But luckily I was there.
And I saw that mistake super fast.
Did nobody really see that?
No, but 300 people on Instagram.
But it was fun.
Reader Lagoma Giori was very cool.
I saw more of him swimming.
And I did that too.
I ate pasta every day.
You're in Italy.
What do you have to do?
The classics.
Yes, just classical.
So it was good.
So I came back home in peace.
And then I went to Puckelpop right away.
With you?
Yes, that was awesome.
I've been in Puckelpop for a long time.
And thanks to my brand, I was able to go to Kumbi.
And my boss said,
Yes, you're going on a Sunday too.
And I was like, mm-hmm.
I knew that was going to be a challenge.
But I had a lot of fun.
I discovered the boiler this year.
I haven't been there for years.
I was there for a while.
And she said, I'm a leftist boiler.

And I thought, Ben, you're 16.
Yes, that's what I felt.
Because Saturday was like drum and bass.
And I felt really back for the people who know it.
In the M.O.D. in Hasselt.
But also some of the drum and bass parties.
I was like, I have no idea.
People from Hasselt know RIP M.O.D.
That's my backpack.
There were my first parties like that.
That was in Brussels for a while.
Yes, the backpacks.
And then, yes, Saturday survived.
And then Sunday back there.
And then at 7 o'clock,
the pipe was out.
As a 32-year-old,
I decided that my uncle was going to start playing.
I went too fast in that boiler.
But I had a lot of fun.
It was really nice weather.
I was like, I ate right away.
But that wasn't true.
We also had fries with curry.
Super delicious.
I think so too.
For a festival like that.
No, so that was...
I was really exhausted.
I did the Boma version.
Because I was free on Saturday.
And we stayed at the hotel.
But of course.
But it was a mega-fine.
So it wasn't sponsored.
I'm going to have to reserve now.
If you think about it, I wanted to sleep next year.
But three weeks ago,
I was just released from the room.
It's called Maison Stout.
Good name.
It's a villa kakelbond.
It takes 20 minutes to walk from the festival to the arena.
B&B vibes.

It was a great experience.
Great experience.
It was really fun.
And I was a little more relaxed.
Yes, I did Hotel Mama.
I'm going to do that next year.
I'm going to do that next year too.
That was fun to be with my parents.
What else?
I want to know what you saw the best.
Billy Eilish.
Billy Eilish was great.
Vildrum & Bass.
I have to say, I was more for sphere and fun than music this year.
It was a great experience.
But it's here with me as my number one.
I have to admit,
I said that to you as well.
When I put up the record,
I don't feel the same music anymore.
But
on the concert itself,
I thought, now it's coming in.
So I really think it's a good concert.
Yes, sad.
Luka has to write.
No, no, no.
I'm really upset.
I can also say that I'm very proud of him.
But the three ladies from Bojini
have really blown away at me.
I wrote and you're happy too.
Of course.
I can.
Further, I have a very serious question for you.
How is your TikTok?
And are you being played by Bama Rush films?
Bama Rush?
No, okay.
You're not on that side of TikTok.
I don't know why they targeted me.
I feel a bit
in a corner.
But in the United States,

you can go as a young woman
to a sorority.
I think I've seen two films of that.
Continue.
And the week before
or the academic year begins,
you have Bama Rush.
And you then call as a girl,
because I want to go to one of those sororities.
And as a whole week,
you have to go through all those houses
and do an assignment.
And since TikTok is there,
you can follow that on TikTok.
And they're all on my For You page,
explaining what outfits they have
and what they're going to do.
I have seen two films
of sororities,
of girls,
who do a whole act.
But that's all Bama Rush.
Every day is another theme,
and they make TikTok films of it.
But that's on my For You page.
I'm completely obsessed now.
And then I saw
an American documentary
and it's on streams.
I'm going to watch it tonight.
Bama Rush.
I will report back.
But it's about...
That's a cult, guys.
So I don't know if there are people
on that side of TikTok, let me know.
I'm...
I have a little taste.
And then it's like...
I probably didn't like anything.
No, it's not for...
I don't like TikToks,
but I keep looking at them.
But it's a concept

that we don't know.
Because at the end of the day,
you have to go to that house
where they were
allowed to be.
Very weird.
I'm going to watch the documentary
and I'm going to add a lot.
I will report back.
Do you have a tip?
Oh, sorry.
I still have a few loose fladders
that I have to talk about.
I also want to say something about Joost.
I'm really pissed at him.
He's not free at the moment.
I get it.
You're going to understand why.
So again,
last week or twice,
I don't think there will be
any more Joosts coming on days.
I shared it on my socials.
So people who follow me
don't want to watch the documentary.
I'm so pissed at him.
And then we...
I told you in the previous episode
that we had a GPS tape.
You don't need to know where the boy is.
So we,
on the right side of the neighborhood,
bought the bathroom,
the roof,
but it's also so great
to call the neighbors
and say, hey, you think our cat
is with you?
Joost, you're pretty sure
that he's not a serial killer
or that he has weird hobbies?
Yes, because he always comes in there
and says, hey,
if he ever does something wrong,

you can really say, I had nothing to do
with what I've been through.
And then Bon wants to do it first
with the two of us,
where we're going to get a ladder
for the neighbors.
Then I sat on that wall
and it's not that high,
you have to grab the ladder,
pull over the wall
and put it down again.
I got a slight panic attack.
I said, no, it's not going to happen.
I'm going back down and we have another neighbor
who has always taken Joost out
until now.
And we felt so burdened
that we always had to ask
and Joost was like,
it's just a wall.
But for me, he was really your supplier
when it happened.
So we decided to take our book
for...
Oh yes, you better not get married.
I thought, I'll just say it.
So we read our book
and read it.
The second book is on audiobook.
Nothing in September.
Joost, who understands
how to say this.
And before I left,
Annikke and I were like,
we haven't seen each other for a few hours,
but Bon, we do see each other.
We read the book
and I suddenly got a message
that Joost was saved again.
Now, in the meantime,
because that house where he's stuck
on that car, that's unaccountable.
They're going to renovate it,
so that it can be sold again later.

Now, Annike was lucky
via the neighbor where we were
able to get the number
of the man who wanted to sell it.
So we had a very strange message
because we had already...
I'm exaggerating, but it will be
almost ten times.
In that corner, and yes,
it's super strange to have someone else in the garden
without knowing that.
We were like, hey Karim,
our cat is always stuck
in your corner.
Can we call
or can we put something there?
And that man was super helpful.
He said, come on, I'm done.
And already a chance, because he's not from here.
And then he said,
put a chair or a table down here.
And then we're going to take that corner
in a short time.
And then I will certainly put some furniture there
so that the boy can go back up.
But that's really...
I was really angry. I was that Monday.
So the first time I told you about it,
as super pissed, on Joost.
Because now it's just one to laugh.
The first two times you think,
what a suckler he is.
And now you think, do you just do it
expressly? Do you know that we can get you?
Yes, I'm really thinking about toxic behavior.
This is toxic, but it's true.
I'm getting nervous.
And now there's a table.
And somewhere in the morning,
I think it was about half past ten
that the gentleman came in.
So I was all that time already,
yes, he's in there again, because normally
it's dinner time, at eight o'clock,

he's standing there in the middle.
So I think it means
that there's a table there,
that he can get out of there.
Yes, I mean,
then we're in for adoption, right?
No, no, no.
It's a problem child sometimes,
but it's a very love problem child.
Yes, I have a lot of trouble with it.
But tell us about your children.
But I'm really pissed, because I gave him
six of his children.
So that, and then we went
to Paris.
You went to Milan, I went to Paris.
And I had Anik,
a gift for Eli Wong,
the stand-up comedian
from America.
And we are a super die-hard fan.
I've already talked about it,
all our shows on Netflix.
So I thought that's a nice gift for Anik,
and also for me.
And then we went to Paris for two more days.
Those are the best gifts.
Look what I bought for you,
what I also really wanted to do,
but it's for you.
It was mainly for Anik,
but I also enjoyed it a lot.
Because I still have a special
highlight of the past week.
Because
I went to the Pride.
Super fun.
And that statue
comes by.
I really don't know if I said this already.
No, this is the only story,
because with all other stories I have to do
as if I don't know anything.
So that statue comes by.

And on one of the cars
there are drag queens.
And out of nothing,
they turn to me
and call her
The Volkshire Eater.
No, not anymore!
There are drag queens who know us!
Yes, absolutely.
And then there were a lot of hearts,
Gen Z hearts, but I can't do that,
so I just made hearts.
And do you know which drag queens are they?
They were advertising for it,
so I'm also doing it for
Priscilla.
Yes, here.
Priscilla Drag Queen Antweppe.
Queen of the Desert.
We're going there.
Oh my god, there is a drag queen
who knows who we are.
My day can't be more.
That's good.
I was really happy.
I didn't expect that.
My heart was filled.
So thank you for
wanting to show me
and calling me.
If you don't mind,
have you seen the
Nair's program of VTM?
Yes, of course.
Where the famous Flamingas
are going to perform as drag queens
and you have to find out who it is.
I don't know, has it already been recorded?
Not so much.
I'm very happy in the jury.
We can play it very well.
We have proven this for more than 5 years.
And drag is our life.
Yes, really.

That was the program of Sprongericht.
Yes, but I think it's really cool
that they can do that on VTM.
And then I also have
the morning of the Pride.
There was also a...
I mean, I'm sitting in a choir
in a Queer Choir.
Wow, you said that a lot.
I've said this a hundred times.
I said Queer Choir.
And they were asked
to sing a few songs
in a atmosphere.
So in Brussels it is often done
the morning of the Pride itself
that a atmosphere is organized
for people who are queer
and want to go to the church.
A Catholic...
Everyone was welcome.
And
and that is organized by
Hallelu Andwerp.
So for those who want to
find all the information on Instagram.
And it was very touching.
I really made all the emotions
because I'm not
someone who is religious
or something like that.
But it was for me the first time
that I really felt welcome in a church
or something like that.
So that was very... I really got used to it.
I think everyone got used to it.
There were also testimonies
of people who really
made traumatic experiences
because of religious elements.
So for everyone who
is looking for that
I recommend Hallelu Andwerp
to help you

and then you can find
the same feeling as it was.
So it was a really nice moment
and I'm glad that it was
successful to organize
for the first time such a atmosphere.
Yes, very, very cool.
Because that's always my allergic reaction
when it comes to the church
is of course their unpredictability.
While we all know
that God created this world
that would have looked different
from that world.
That's the only thing I want to talk about.
And that was also at Pride
when you went home after that.
It was so nice in the city
because everyone was just
themselves and
wondering why it can't always be like this.
We thought it was super safe
to just walk across the street
and everyone in all their colors
and beautiful and beautiful
and it was super nice
and I was like...
I mean it.
And I said it with my shoes
and it was super shocking.
But that's the best thing you can do.
I said, wait.
What was that?
When I was thinking about it
Luca sent me last week
or this week
he was going to visit his grandfather
in the Trousthuis and he said
you will never believe what has happened
but I'm stuck in the Trousthuis
by a bearded monster.
He came to me with his bike
and he stepped off and he put his helmet
and that woman flied to him.

And I was like
Valar, you know how that is.
But it was not my idea.
No, that's not the case either.
But it was two women, one in pink
and the other was in purple.
Look at that woman.
Look at her.
Look at her.
Valar, there were all kinds of flodders
that I had to tell.
Very good.
So I really had a few nice weeks.
I had two tips.
Me too.
The first is on Netflix, The Deepest Breath.
We saw that
and we weren't really good at it.
So that tells the story of
a woman who
dives
without diving.
And it tells
a whole story of her career
and what she wants to do.
But there is also a dramatic
story to it.
And we were really
not good at it.
There are a few things I don't understand
and Deepest Breath is one of them.
But especially freediving.
That's really insane.
So take a look.
Super good.
And then last week
we had an episode about the word Internet.
And apparently
a few days after we had the episode
I was on the podcast
on the Internet.
And they were there
at day and night.
And there are Marie Kuipers,

Samia Hafsawi and Timo Harmerlink
and they actually discuss
the best and the worst of the Internet.
So they do still do the Internet.
And Samia can
also know
I already knew via TikTok
because she is the one
who talks about
American series and movies
when they talk about the Netherlands.
That's really bad.
And she does that in a really funny way.
She shows it.
Guys, it's not good.
That's the last fail in Oppenheimer.
So if you are not
on the Internet
of a feud
then you have to be on the Internet.
I have two podcast tips.
One is a tip
that came to us from you
a hundred times.
So I waited for it.
And I am a fan
of the podcast.
It was gone.
No less.
But the thing is
I first listened to Believe in Magic
and without too much
to spoil where you
still have two sides
is that
there is no explanation
to give.
So you have really bad people
on this planet.
And I think that's always confronting.
Yes, I understand that.
The podcast was very good.
I also said to you
instead of reading a book

you listened to a podcast episode.
And that was very nice.
So I really liked this one.
I am
so different
and it always
makes me wait.
But what I also have
are all scams
and I am a bit sad
with the scams.
I understand.
So I can do something new again.
As a mafia I don't do that.
I would like to
but
what fascinates me lately
is the Metaverse and Crime in the Metaverse.
Interesting.
Do people get killed
in the Metaverse and what do you do?
I would listen.
I want to know.
That kind of thing.
This and Tell.
Something totally different.
You have already mentioned
Even the Rich.
It's the same
but not again.
Every episode is about
a celebrity, Void,
Ruzi.
Two people who think
that they are quite each other
but how did that happen?
I will take
Haley Bieber and Selena Gomez
for example.
But also Zilia Banks and Grimes.
I totally forgot that
Ruzi was made.
Hilarious.
Super stars do very strange things.

I think there are a lot of American realities there.
But the ones who are interested I listen to and they are very nice to tell.
I can tell everything about Ruzi.
Justin Bieber, Selena Gomez and Haley Bieber.
I already mentioned that.
If you want a deep dive.
If you want to go deep fine.
Sponsor.
Sponsor.
Maybe we should do that without a jingle.
That would be fun.
A jingle.
We will be sponsored by AirUp.
We are both at the lurking of our AirUps.
And the special thing is that I am from a steel bottle.
Oh that was ASMR.
ASMR with AirUp.
I have a steel bottle.
Laura has a plastic bottle.
And I am a fan of these high quality bottles.
Because it is said that you keep your drinks for up to 14 hours cold.
And that is normal.
Because I took this one with me to Pucklpop.
But I had two bottles with me.
I had one bottle with me on the way.
And one bottle for later in the way.
With the way back home.
We have cold water with us.

I thought I will test it.
We will see what happens.
And I come back
to the wey.
And I feel that the bottle is warm.
And I think
that is not what my promise is.
That promise is not good.
And I slurp.
And I think it is cold water.
It is not ice cold of course.
You are going to make it warm in your wey.
You are going to put it on the chair.
Like in the sun.
On the wey.
And because you know with plastic bottles
in no time your water is warm.
So I can recommend it
if you are on the road
and you need water
or let it lie there.
I think it is a good bottle.
It promises what it promises.
I also have it.
It is directly confiscated by
Mr. Lukas.
I also like this bottle
the way to open it.
It opens differently.
I see it.
It is a dream for me.
Because it is not in my bag.
He does not want the pink Arab.
No.
He is directly at the sick.
The one day this one.
And he was directly at our sick.
So if you use a pot
you will have a nice fresh drink.
Sylke
can convince you
to buy a metal bottle.
We have 15% shorting
on all bottles.

So also on this one.

You can get that at
arapstreepjeup.com
and our promo code

TheVolksjurie15

is valid until the 31st of August.

So.

And then we want to
briefly talk about one of our previous sponsors.

Emma Sleep.

There are a lot of reports
on social media.

There are problems
with delivery at Emma Sleep.

That the customer service does not
react as it should.

To hear.

And the Dutch
is it a production
program?

They have posted on it.

They always do it very well.

And very correct.

They have talked to people.

They have started
an email address
together with Emma Sleep
who is aware of the problem.

Do you have

via our code

delivery problems

that you would like to share?

I will share the email address
where you can send these
to.

Emma Sleep promises to do it.

We always find it very important
to handle it.

So if you have complaints,

if you have questions,

you can

find it on [klanten.oplossingen.at](mailto:klanten.oplossingen@emma.sleep.com)

[EmmaSleep.com](https://emma.sleep.com)

You can also find this information

on the Instagram page of BOSS.
All right.
I could choose.
The one that was on my list for a long time.
Because the recent one
appeared again in the newspaper.
And then
I was like, oh, I always have to do this next week.
And luckily, my aunt said
you can let it calm down
and forget about it.
And then it's much more fun
when it comes.
So here we go.
Here I was waiting.
Excitement in her eyes.
For the people who
already know me,
this is my age, my world of life.
I think
everything about this.
Yes.
Here we go.
It's Sunday evening,
November 7, 1974.
We are in the heart of London,
in the Belgravia district.
I don't know.
I don't know anything about London.
Okay, but you already have something
from Soho or Westminster,
where it's next to you.
It's a west of Westminster,
that's what you heard.
I think
if I ever open a café,
it's going to be a mess.
It's still there.
So it's on my list.
And it's storming there.
It's a woman inside.
Her name is Veronica.
And she's completely under the blood.
She's on her tour.

And she writes
in the middle of the pub.
Help me, help me.
I have just escaped
from a murderer.
He's in my house
and he murdered someone.
That's a good idea.
I'm thinking about it.
I like it.
I like the idea.
We're going to look further.
Those guys in the crowd,
what the fuck is going on here?
What is this?
It was a night in Japan.
They were all under the blood.
I think they were.
And then they fell asleep.
Those guys think,
I can only call the police at this moment.
And
they already know
that it's about Victoria
and where she lives.
So the police go there.
The apartment is being searched for.
And
there they actually find
three dead children
and a corpse.
A biocadon of Victoria.
A biocadon of Veronica.
She was born in 1937.
As the daughter of
Major Charles Moehaus Duncan.
And his wife Thelma.
I always think it's a shame that
there's always
always on Wikipedia
what that man does
or his functions.
And then with that woman the name.
I'll teach him because he's in a car accident.

Sorry, I'll take this back.
I'll take this back.
But he died in a car
when Veronica was still very young.
And her mother decided to
go to South Africa.
Why not?
But I said, this is all I dream about.
Yes.
Her mother moved to South Africa.
There she meets a new friend.
She married him
and the family decided to go back to England.
Her stepfather
is a manager in a chic hotel.
Veronica and her sister Christina
lead a normal life.
They go to
a middle school together.
Veronica has a lot of
interest in art there.
She also goes to the art academy.
She later becomes a model.
That's in the year 5060.
Love it. Love the vibe.
The two sisters later
have a flat in London.
Also a vibe seems very nice.
But then
Veronica and Christina
are in love
with a rich man.
William Shandkid.
Fun fact.
He's Peter Shandkid's half-brother.
He's the step-father
of Lady Diana Spencer.
We're in
the Adel region.
Because
of Christina
Veronica is also
in the high society
London's Kringen.

And
she's
at a golf club party.
Sorry.
I need those advice.
A world where I'm not
in.
Ben or will be.
I want to do this.
I want to do it.
If there's a golf club, listen.
We're at a party.
In outfit.
What do you want?
Veronica is also there.
On that party.
And there her eyes fall.
On John Bingham.
But we know John Bingham
under a different name.
Lord Luke.
That doesn't make sense.
It also seems like a stripper's name for me.
During this
preparation
of this episode
I mean I saw the data.
I think
as if we were in the 19th century.
Yes, I know.
But I kept thinking
we're 1800 and so much.
Every time I had to think.
No, we're in the 70s.
We're cars and telephones.
Now Richard John Bingham
was born on December 18, 1934
in London.
He's named John.
In Malibu.
Sorry.
I go to London every week
that he's standing in front of me.
I can't say that.

Malibu and London.
I'm just going to let you do it.
He's the oldest son
of George Bingham.
Sixth Earl of Lucan.
And Earl is a Count.
And his wife Katelyn Elizabeth
and Dawson.
And for Katelyn we don't know
what she did in her life.
Except that she had a blood clot
because she came to a house
to take care of her.
And that's where John came
under the guise of
the child of the family.
Now, it's then
1939. We all know what happened.
The Second World War.
And he and his sister Jane
were brought to Wales
in safety there.
But then in 1940
together with his younger brother
and sister Sally and you
to Toronto in Canada
Canada.
And then they go further
to Mount Kisco in New York.
And there,
living their best life
at multi-millionaire
Marcia Brady Tucker.
And oh my god.
If there is a multi-millionaire
in Upstate New York,
let us know.
We are happy to be together.
Yes, fine.
So yes, you can imagine
that's one and a half luxuries
how they live there.
But then in 1945
the war is over.

So they have to return to England.
And the contrast can't be bigger.
People still live there
from the bonds they received there.
One of the houses where they lived
was completely destroyed.
And above that, their parents
are still agnostic.
Oh my god.
And they are socialist.
The horrors.
So the parents decide
or they just have the lifestyle
of we are minimalists.
They live a very sober life.
So that is a very contrast
with what John and his brothers and sisters
have experienced in New York.
Now live goes on.
John goes to the famous school
where all the prime ministers
of the United Kingdom
have been to school.
And there
he has something like
I'm no longer at home.
That's a boarding school
where you also spend the night.
I don't have to live the minimalistic life here.
I can do what I want here.
And here I had a little sympathy
for his boys.
Yes, it's really a quiet boy.
So he develops a forelove
and he gets a lot of money
every week to the school
that he uses to make money
where he often takes out profits
and tries to make money
by making his money.
He has a secret bank account
where he puts up his profits
without his parents knowing it.
And regularly he doesn't leave

the school to go to a few races
and then he collects
income
from his middle students to make money
and then he shares his income.
Probably that's a percentage there.
You don't have to explain it
how it works.
He studies there.
His mother tells
that his academic state
is far from profitable.
So those points were not good.
But he was
more than enough to study.
And in 1953
he started his duty.
Easy parents
because he comes back
in the regiment of his father
where he is the second lieutenant
seems to have taken care of me.
I don't think you see that much progress.
You mean the lowest
of the functions that you can
after the soldiers?
Yes, but I understand that.
You are a little better than the rest.
Yes, indeed.
He is mainly stationed in
West Germany
and also there he spends his free time
playing.
It feels like a forte.
After his empty service
he works at Williams Brand
Suns & Company.
It's a trade bank in London.
It's a well-paid job
with a salary of
500 pounds.
I don't call.
Sounds terrible.
Now there is a slimmer, how much does it cost

in the current society?
But it doesn't sound very much.
So there are some trust funds.
I also want to be a trust fund baby.
Yes, because
in 1960
Steven Raphael
is a rich effect maker.
I looked up what that is.
Someone who is justified
for his profession
for other actions and effects.
It will be.
I don't have that money.
I can't affect.
Is this effective?
It's important
that Steven is a
backgammon player.
I've never played it before.
It's not a Chinese
game.
I've seen many people in China
play it.
Bingo World Race.
I was very excited.
I wanted to play it.
But I don't understand it.
Everybody says it's not difficult.
But I don't understand it.
Steven and I
went to the Bahamas together.
We went skiing, golf,
and of course
backgammon and poker.
John is getting more and more
crazy.
But he's skilled.
He's a very experienced backgammon player.
He's good at it.
But on the other hand
he loses a lot.
You win some,
you lose some.

At some point
he lost 8000 pounds.
So you have to think
500 pounds was his year salary.
But
8000 pounds is 2.3 of the money
that he gets every year.
2.3.
It makes the calculation for yourself.
I wonder if you really
like stinky winky rich like Lord
Looken.
So much money.
Is that what you need
to have a thrill
because you don't have to
earn money because you already have it.
Everybody does such stupid things
because I think I would do it
and only do fun things and I would
always do 10% of my money.
I think I know what I don't
because I don't have it, but is that so?
Or since I'm so rich
I have to take risks to feel something.
But you've done it already
I don't think it's
something to do with the fact that he's rich.
It just gives him more opportunities
to feel the addiction.
Yes, it's an addiction.
And then there's another
disastrous night in the casino
where he lost 10,000 pounds.
So luckily he has
an aunt
who says, don't worry John.
I'm paying you the money
so that you can pay your debt.
And he can pay his aunt back
thanks to that trust fund.
So it's starting to
become a vicious circle
because

John also decides
to leave his job
at the bank
because he thinks he's
a card player.
I'm not that kind of player.
He wins 26,000 pounds.
Nice, nice, nice.
There was a colleague
who had promos.
John Niet.
So he says, look, here's my contract
and he put it in there.
Why should I work at a bank
if I can actually
earn one day
what I can earn a year.
So
I can earn 20,000 pounds
with that
I get 13 years
salary.
So he says bye
and then he goes to
the US.
And there again the same riddle
he's going to play golf.
He's going to ride a speedboat.
He has an Aston Martin
where you can travel with him.
He's going to visit James
his sister
and then he comes back to England
and decides to look for
his own apartment
and he leaves the hotel.
Yes, and he settles himself
and as we already mentioned
there are also live goals
which are published on 14 October 1963
and are published in The Times
and The Daily Telegraph.
But that's often the case
on regional pages.

So it's up to
who's lost
or who's been here for 60 years.
Here in Belgium.
Yes, and the region of Spain.
But this hasn't been the region of Spain
because it's idle.
But that happens more often
than in the region of Spain.
Yes, that's true.
We can talk about it now
when I was working for a certain newspaper.
It's still being done.
Interesting.
Good for them that they're in the newspaper.
Fan for him.
After a short date of a month
and a half, on November 20
in the Holy Trinity Church
in Brompton
on the Wikipedia page
the ceremony was included
and it's written by
Edloon
for the rest, a few other prominent people.
Ooh, a little diss.
I don't know
about that
and I'll leave it on public travel.
Again, live goals.
Because as a fucking public travel
travel is the first class on the Orient Express.
Amazing.
Since recently you can travel there
and they've rebuilt it completely.
And it came online.
You can book it back.
I was that naive girl
and I was like, oh my god,
nice, I'm going to do it.
Your heart breaks when you see those prices.
Yes, of course.
When I saw that, I thought,
do you want me to do it?

Yes, and I was like, do you want me to do it?

I'm going to participate.

I don't want to participate.

Do you know what that was?

It was more than 1,000 euros per night.

Oh, per night.

That's a historical trend.

Yes, yes, yes.

You're not going to sleep there.

No, no.

Is it not true?

Yes, but probably it is.

Anyways, that was their public travel.

Amazing.

Almost public,

it also means a small public gift
from the father.

The father of John

gives a lot of money

to make that breakthrough

in the new family.

The intention is

to buy a house with that money
and start a family.

And that's also what John does.

But the biggest part

of the public money he gets

he gives it

to the debtors

when you have to pay for it.

But he also buys a house

in Belle Grave Street

in Belle Gravia, London.

That FV Ronica can invest

a lot of money.

And then a little dump

on the party of two months later

on January 21, 1973

January 21, 1964

John's father

is sent to a brother

so there comes

an earthquake again.

250,000 pounds.

And next to that
the titles of John's father
go over to Lucan
the grave of Lucan
Baron Lucan from Castelbar
Baron Bingham from Malcolm
Bingham
and Baronet Bingham from Castelbar.
I was really hoping they were all in English.
No, sorry.
And FV Ronica becomes
Uncle Gravin from Lucan.
Now the family
is getting out
because there are three children
Lady Frances Bingham.
She was born on October 24, 1964
and was born on September 21, 1967
and Lady Camilla Bingham
was born on June 30, 1970
and with that
Frances is the first daughter born
in 1964
I think we can use some help
and in 1965
a nanny comes to Lillian Jenkins
to take care of Frances
Now
Luc, John has something
I want to learn
how to play golf
and all those things
and he
bought golf lessons
at some point
and Ronica was like
No, but why?
So she stops with it quickly
and now a little
reading of how
John is a day
How does your life look like
when you are rich?
So the break is at 9 o'clock

I read my coffee, books
I read the newspaper
Can you imagine reading books?
When was the last time you read a book?
I don't mean the things that come up
but a letter
No, it was from my penpal
I was like
So nice, so you try
to read all my books
Now there are f**king mails
And then he also plays a bit of piano
That's the afternoon
sometimes he goes jogging
and then he takes his doberman with him
Nice
No fun
So I really want a dog
and Lucas doesn't
but the only dog that you like are dobermans
I get it, because they are very nice dogs
but I have a traumatic experience
I was 8
I was 8 and I rode with my dad
and we came
in a street street
and we wanted to turn around
and suddenly there is a doberman
and then there is a Jack Russell
who is a doberman
who is a doberman
and my dad told me
to turn off the doberman
and then we are going to ride
until we are gone
and then we made it
and then we called the police
and there was a person
who stood up
but also clearly his dog wasn't doing well
because I have all the confidence
that those dogs are doing well
I was 8
and that dog was very big

So with that
I already explained to Lucas
that it doesn't work
that means that there are big dogs in the city
you are going to choose something smaller
Jack Russell
never in my life
they are all
active dobermans
I can't handle that
Duracell dobermans
So my dad
is going to walk with me
and then
is it time for a game
backgammon
then back to home
then he dresses up
and a chic outfit
goes to
an establishment
where there can be even more
and sometimes Veronica is there
who can see how her husband
has been like that
and
as I said
I have a goal
to have 2 million pounds
on my bank account
to buy cars
to buy yachts
to go on holiday
and to have security
for my future financial security
and
now he is very
about as extrovert
but his friends describe him as
a kind of disgusting man
who is also an extrovert
but John looks pretty big
and he also had a
disgusting snore

and with that
he came over as a popular man
also because he had those expensive hobbies
people wanted to be with him
because he did great things
and the money was also to do
to do such things
and then there is also something interesting
that is very fun
fun fact that we also
posted for you yesterday
for us today
in 1966
he went to audition
for a film role
and he didn't get that role
so
a few years later
a film producer approached him
saying he would like to come and cast
because we really wrote a role on your live
the main character has the same interests
even if you move
in expensive circles
and he came to test for the role of
James Bond
and he refused
because he was like no, I did something wrong
but imagine
that John could have been James Bond
imagine, oh well that became Sean
oh but
I also want to say that
maybe it is a popular opinion
but that is my favourite Bond
yes but I understand that
I understand that
drink some of your air up
let's move on
I have already said it
he was a very skilled player
when it came to playing Gox
he was also
in the top 10 of the best

backgammon players
in the world
then you have to be able to
evaluate your risk
and I also get
the nickname Lucky Luke
because he always had a lot of luck
but in reality
he was anything but Lucky
that is of course
because he lost money
and he also got an interest
in full-blood horses
so you have to get that
you can also say
maybe a expensive car
maybe a yacht
but I can still buy horses
I missed this in the story
I still need to break the horses
so in the end he also gave more
than in 1968
he also started to pay more
to go to such a race
than that he had
something to do with it
he lost money to go to that race
now Veronica in between
oblivious
she thought
I think she knew
what was going on
but she just kept
shopping in London
but the thing is
she gave money to go to the bank
so you don't know
how much money is
and how deep you are to dig
and for the same money
she said she might have millions
to spend and she might not know
maybe she thinks
he is going to dig

but he will never be able to
reach the bottom
I suspect she would have been a bit blind
but I wonder how far
she can prepare herself
just along her side
but in general it's not
super with Veronica
because after the birth of George and Camilla
two young children
she gets to fight a postnatal depression
and that's very out of character
for me
John is very busy with that
and he also wants her to be helped
so he drives me to a clinic
where they could be taken
where they could be treated
in 1971
and even though I don't really want to
I want to be treated at home
I want to go to treatment at home
and I will take a cure with antidepressant
girl not going to help for depression
antidepressant
right?
sorry I thought there was an antibiotic
I hope
from heart antidepressant
helps against depression
I hope from heart
because I saw antidepressant
you are just going to an antibiotic
and you can't help
but I hope so
so that's where she's going to be
to get better
I think she's going to be
treated well
and in the summer of 1970
the family said
we're going to get out of there
and where we're going to get people
from Aal op vakantie

where you have to go
but Veronica's order
doesn't really
go back to the house
then the rest of the family
so she's going to look behind
with the elderly
and from then on
it's actually downhill
the pressure
of the financial side
where there is a big toll
the cost of John's
and the addiction that is ongoing
her mental health
that is still very unstable
starts to weigh on that
in 1974
in 1972
but the atmosphere is extremely tense
and after two weeks
after the disastrous Christmas
John decides
to leave the old house
and put it
in his own apartment
in Eaton Row
and then a few months later
John moves to a
bigger apartment
because that man has money
and Veronica
says let's try
to make a solution
let's make sure it works
but at that moment
John has something
for me it doesn't have to be
the only thing I still want
is for you about the children
and he says
I have to make it clear
that Veronica
because that's often the case

that it goes to the mother
not in status to take care of our children
so he starts
to spy on her
he puts in the private
detectives
who then have to find out
how Veronica is doing
and this is
a private detective
but this is still a big mistake
because he goes to doctors
where he actually wants
to hear that
he actually wants to hear that
the doctors say
your wife
is not as thin as you want
to describe her
she's just depressed and has anxiety
and how would it come out John
can you ask yourself if you please
so yes it doesn't come any further
but in the meantime
John also starts to spread
stories about his wife
with his friends
where he says look Veronica has
defeated our nanny
who actually started
working with him when
French was born
so after almost 10 years
she is defeated by Veronica
says John
and from then on
there are different stories
of nannies
who have
different stories
like there is the 26 year old
Stefania Savitska
she
believes that John would have

beaten her with a stick
and at a different moment
she would have made her step
and Veronica has
said to Stefania
look I fear for my life
and that Stefania
shouldn't be surprised if she would
kill her on a day
now
Veronica also continues
what John is trying to do
that she wants to be explained
look I am going to a clinic
I am calling
and there it is said
you still need
psychiatric help
but there is no sign
that you are mentally
not healthy
or that you are not caring for children
those are two different things
and then there is a sitting
in which it determines
who the children will be
and that is
Veronica
very funny because in that case
John tries to do everything
to make it clear
that Veronica is not taking care of
the children
and she will have a lot of money
and lawyers against her
but during the hearing
she is forced by the court
to change her own behaviour
those people have something like
sorry but you are talking about stalkers
you are the problem
there is no access
in the weekend
to see his children

and yes
he has lost a lot of money
on these cases
and he is only getting angry
and the things he does
will go a step further
than private activities
he starts talking on the phone
listening and recording
he plays those fragments
with friends who want to listen
the bank manager
the person who also owns Veronica's money
she is the one who is giving all the money
I don't do anything
he had to
John had to pay Veronica 40 pounds
per week
children's money
I think
he delayed the payment
so that she would need money
so that she would have to work
he annulled
say something
no
he had to
there was a pretext
that there were people
who came to childcare
and he had to pay
but he didn't
the weekly order
he delayed
the milk delivery
the payment
to the children's office
to the children's office
so by keeping the payments
he had to make sure
that she would come back
as a mother
a lot of children
passed

who were not in service
and in 1974
a new
fixed
nanny
Sandra Rivett
I have a little fun fact
about one of the previous
I didn't highlight it
about
Elizabeth Murphy
so he asked
about her information
about his ex-wife
but then she says
I want you
Elizabeth and nanny
to also share information
because I have to know
if she takes care of my children
but then
the cooperation with the previous
was done
and the men
came to him and said
we still don't have
a few bills
so they stopped
to emphasize
the job is to make a soup
exactly
Sandra Rivett
she is the nanny
who will be in service in 1974
and who will be back
as a long-term nanny
who is Sandra
born on 16th September 1945
as a young child she moved to Australia
for two years
but she returned to the United Kingdom
in 1955
but we know about Sandra
she is a popular child

she had a lot of friends at school
but she doesn't have the best start
in her adult life
after a miscarriage
she is allowed
to take care of herself
where she is treated
for a depression
she tries to learn it on news
John knows a construction worker
he is allowed
to have a son
in 1964
with the name Steffen
but also the relationship
goes on
and Sandra is in need
to go back to her parents
she has
I don't see this anymore
she says
I will give this baby to Steffen
I don't see it anymore
to be a single mom
luckily she has parents
we are going to support her
we are going to help her
and she will adopt her son
and eventually she will meet
in 1967
Roger Rivett
after that she will have a child
Roger Rivett
and with him
in 1967
1967
sorry
that is a fun fact
about me, in 1967 and 1976
but those are the only two
I don't have nine
but those are the six and seven
I have them all
Roger Rivett

is a mother
at the Royal Navy
but also that
horrible beach in 1974
in 1970
and Sandra
is on her own again
and the writing is finally in
at a family office
in that one known town
in London, the Belgravia town
and is recorded
by John and Veronica
to take care of the kids
and in the meantime
she also has a new boyfriend
also a John, John Hankins
and normally
I always talk to him
on Sunday evening
but on Sunday evening, on November 7
she already saw him the day before
so she said
I just stay at home
and she puts the kids in bed
and around 9 o'clock in the evening
she asks Veronica
look, I'm going to make tea
in the dining room
would you like a tea
so she goes down
and that is how Allah
the kitchen of the servants
is in the basement
and you also have a kitchen
for the people
so she goes down
and she comes
down
and out of nowhere
she is beaten
with a lollipop
and
Sandra is dead

and she is in a mail
stolen by the thief
and Veronica
has not noticed anything
she has been
making a cup of tea for a long time
sorry, you have 3 minutes
we are in big britain
it is serious business
so Veronica
says ok
I'm going to the kitchen
to see what is left
and she calls her name
from above
and she is attacked
and she fights
really for her life at that moment
and
with that fight
she starts to call
she says the attack
and Veronica
recognizes the voice
of our John
she really enjoyed
I really enjoyed
now they keep fighting
with each other
I thought you did not go into the fight
she bites him
in his fingers
and
at some point he throws
his face on the carpet
but she hits him
to turn around
and to stab him in his balls
so he lets go
because he is stuck
and he gives up
and he flies away
sorry, he does not fly away
but he stops fighting

and he asks
ok but where is Sandra
what did she do to me
and he says
he is sorry
I do not know
but I always come
super aggressive
out of the basement
but he still gives
that he has killed her
and Veronica quick thinking
she says
I will help you understand
and here a few days in the house
so that I
I am used to it
so that people do not think
strange about it
and John says right away
and goes up John
goes to look at his children
what an idea
but also the fuck
you guys just fought
he probably hangs himself under the blood
and if you go in the bedroom of those children
and Veronica wants to lie on her bed
and John says wait
put a few gloves on
so that the tears do not
come under the blood
if you do that
you have the right to speak
but I do not think
now John asks
look you have pain killers
and
he goes further to the bathroom
to get a wet towel
to wash Veronica's face
but it is so freaky
I just want to say Veronica
with your one of us

your brain is something
that is fantastic because you do not come up
by saying I will go into this story
to bring yourself in safety
very intelligent
very smart
but how oblivious is John
that you really think
of course I am in a super serious fight
with this woman but she is going to help me
and we are going to
freshen up together
she just pulled my balls off
now
he is on his way to the bathroom
to get that towel
and Veronica realizes
that if he is in the bathroom
he cannot hear me
he cannot know where I am
so that woman runs the fucking house
towards
the plumber's arms
and that is where Veronica came
under the blood and says
there is a killer in my house
John just met the killer
Sandra knows
about her
the plumber's
arms
phone ringing
towards the police
and there is Roy Ranson
on a good name
head inspector
Roy
he is going to the apartment
where they arrive
but
they can only
attach the death
to Sandra Rivett
who is still in a post

really good
at the front door
the two agents themselves
had entered to get in
was actually the only place
where
it was locked inside
where there was a break
what probably meant
that the plumber had access
to the apartment
they run
towards the basement stairs
where they find
a bloody red pipe
what probably the murder weapon
will be brought with them
and then breaks my heart
they find on the foot of the stairs
two skulls and skulls
where they had been
so that Sandra won the job
really intense
really intense
the apartment is being searched
but the murder weapon
is no longer in place
we know that John
of course no longer lives in the house
where the facts have taken place
so the agents
also go to the Eaton Row
and to the other apartment
on Elizabeth Street
where he is his own
but also the two apartments are empty
in the last apartment
they find everything back
interesting
on the bed they find a costume
an overhead
a book about rick's ship
millionaires
very good

what I want to be
a ship millionaire
a rick's ship
but also the portfolio
of John, his car keys
money, jewellery, backpack
glasses, passport
is found back in his blue Mercedes Benz
which was parked outside
with a cold engine
and empty batteries
so he was no longer in the front
no
now they come back
that John
after the facts
at 10.30 in the evening
at the mother of a little friend
of his daughter is going to call
and that is Madeline Floorman
that mother
Madeline had a first impression
I am also like that
I am not expecting anyone
no
certainly not when I am working
did you agree?
and do you take the phone
of Anonim?
I think if they really need me
they send me a message
because
I just like to know
what it is about
when I pick up the phone
I don't like to expect
how to handle it
you have a missed call
someone sends a whatsapp
about it and asks when I can
call you back
or send me a message
that you are this person
we can call

but out of the blue
don't
there are only 10 people
I think my phone number is
somewhere it has been
9 out of 10 times
so that is also a reason
why I don't pick up the phone
and I think if it really is something
then they call me back
what I really like
my number is
because I live in Brussels
it will also be on a French list
and I am super proud
of my flotation in French
but if there is a scammer in French
then I don't speak a word
you can try it
in the Netherlands
but probably from that list
I think
because you can't understand
but in the Netherlands
like me
I didn't want to open the door
in the first instance
but
then you get a phone
a whole
how do you say that
we hang together
what are you doing
you get such a phone
but they also put it back
like you put down the phone
what the fuck is this
now the police comes to know
and they actually find
blood stains on the door
and they come
after that there is a mix of blood groups
A and B
until then

what they also know for sure
is that John called his mother
between 11.30 and 11.30
and after the visit
and he says
look, you have to get the children in the house
because
he says there is a terrible disaster
happening at my wife's house
he says
look, I was passing by
and I saw how Veronica
was fighting with a man in the cell
you saw him driving
but he also entered the property
and then met his wife
screaming
now around midnight
John was with his mother
and he said
I will call back later
and he refused to talk to the agent
who was with his mother at that moment
he said
look, I will call the police tomorrow
but no one
has seen John at that moment
this is only because the police
came to know
so what they do
they actually send a description of him
around the country
and these stations
they actually get to hear
that John is only being looked for
to be questioned
so there is no one who says
look, he has been killed
he is just being looked for
for questioning
then they come
that he was actually 68 km
further
to Ackfield

and there was a friend couple
Susan and Ian Maxwell Scott
John arrived at him
a number of hours after the murder
and there John actually took the time
to write two letters
to his brother-in-law
and then he did it in the east
now
Susan also asked
why you did not call the police
when you knew that John was with you
and said I did not know what was in his hand
he probably did not see the blood
sorry, we are in the 1970s
so this is not a newsflash
like she knew
indeed
and he actually tells the same story
to Susan
I saw Veronica fighting in the basement
with an unknown man
I went inside
but then I fled
instead of bleeding
so he would have had a lot of blood
and this was the explanation
or he just had to dress, that is possible
indeed
and he also tells Susan
that John was guilty
of a murder
to have killed her
so there were
many sightings
and phones
that they could get behind
and
then
the next morning
they found
a trailer
a Ford Corsair
and that was

actually the car
where John was driving
he actually had stolen
borrowed from a friend
so it is a very nice car
and in the trunk
a piece of loaded pipe
was found
but I also thought
about it with the loaded pipe
which was found in the basement
further and a full-fledged vodka
I would say
and the car
was found in New Haven
New Haven
the name gives way
this is Anet Water
we are very close to the coast of Great Britain
explanations
say the car is there since
5 o'clock in the morning
owner of the car
is Michael Stoop
and he gets woken up in the morning
without a car on his stove
I did that
but with a letter in his letter
yes
and the letter was written by John
and in that letter
John says what happened that evening
so I just want to say
John writes a letter
to the owner of the car
and I borrowed the car
because this happened
no excuses
sorry that I picked your car
smeared with blood
and left behind
and you don't do that
but he asks
tell my children that I like to see

because
you never trust me
he says
I won't make a chance
but the problem is
that the owners
couldn't find out where the letter was
because Michael
the envelope
where the post stamp
post seal sample
has already been thrown away
so they can't find out
where he wrote it
but
they do know that he also wrote a letter
to his cousin
when he was at Susan
and also there he writes
the same story again
and that he says
Veronica, forgive me
and I know that it looks bad
and that all the indirect evidence
proves to me
I didn't do it
and he also says
I'm going to send that to the north
I'm going to send some money
and others
as serious as that man
at that moment
so those are the letters that were sent
and were removed
and those are
the last
elements that we get from John
what the police still do
is to spread the description
about Great Britain
and they eventually give it to Interpol
because I've already said it
now there is the water
the coast

towards the mainland
of Europe
the police is going to search
places with spurs
the village and the woods
they don't find it
they don't find it like a man
who was missing years ago
they found it
there are spurs
and there is infrared photography
used
we are 1974
I mean that is very impressive
but it doesn't show
and
John is missing
it's a joke
very bizarre
now a little further
about the investigation
because of course there is also an autopsy
on Sandra's body
there they are
sure that
she was murdered before she was
put in the bag
and according to the doctor
who found the red pipe
on the crime scene
it could be
the murder weapon
but to make it clear
they find a murder weapon
in the cell
but they also find the red pipe
in the car
I don't even have a red pipe
in my hand
no
it's a bit like a staircase murder
because it's such a strange
folk
so now

they are also going to ask
X-Men Roger
but he seems to be
to protect Alibi
and there are also other male friends
and friends wondering
why they are made as suspects
and
her parents say
with Lady Lookin, with Veronica
she had a very good band
with the children
so actually all that fast
those pistols are all closed
and with the knowledge
or with the story of Veronica
they will of course
much faster
connect to John
and of course with the car and the letters
that were found
the red pipes
were also examined
and the red pipe
that was found on the crime scene
until the blood traces
wait a moment
so there was blood
of the one red pipe
that's why they are linked
together
it turned out to be
blood group A
Veronica and blood group B
and on one of the pipes
so on that pipe
on the crime scene
hair was also
or is it wrong
I didn't write that well
but on one of the red pipes
Veronica's hair was found
but not Sandra's
and on the pipe

so scientists
can not necessarily prove
that they are cut from the same long piece
but they are probably behind that
so they just find
different elements
that can link the pipes
that's really all I'm saying
that's how I wrote that
I thought I would do the last
but you are struggling
but I thought you would
have a much better conclusion
I did my best
but you do what you want
I will rap
a lot of research
concludes that John is guilty
and that he probably
will have the murder
but we are sitting here without a murder
so we can't judge anyone
no
and of course his family
John of course is not happy
with your judgment
but I also want to talk about the motive
for sure
but then we will talk about it
they are behind him so
I thought you would give your own motive
just because of the rambling
I still have to
so
he had
really lost his business
for his children
and he had invested a lot of money
and lost
he had about 20,000 pounds
and in 1974
his financial situation was bad
and that is still an understatement
he became a chain broker

his friends started to worry
and when he was drunk
he talked to his friends
about murdering his wife
hmm
a friend says
for example
that John apparently said
if I were to murder my wife
I would not go bankrupt
but I don't know
what has Veronica got to do with it
I think
but then
they were not officially split
that he would
get a part of her inheritance
and that she had
money or something
that is my understatement
but he would
take care of himself in the sea
and he would also tell how he would never
be hit or found
so those are all
elements that play a role in reality
but
from October 1974
so a little month before
the party takes place
see friends
he is getting better
with John
he is getting better
he is happy
and his obsession with getting
children was also reduced
so at that time it went well
but all those things
play a role in the motive
that is more than enough
a few
pistes
I have

the first pistes that Veronica
herself
has received
she says I am convinced
that he has committed murder
that he has taken the ferry
towards Europe
and that he will jump
in the middle of the channel
between the turns and the screws
because he did not
want to be found again
Veronica, close your eyes
I think the last date of him
is very brave
Veronica
see
they are going from there
that we have committed suicide
we have already said
we have been searched for in the religion
we have been found in the other religions
and they are looking for it
but in the end
they get rid of those pistes
there is another interesting pistes
that is coming from BOT
there is someone
a friend of him
who apparently had a animal garden
where tigers walk around
and this is also a famous story
because we have heard this before
but his mother
Espinell
called that man
and his mother Lady Osborne
she would have told the police
the last thing I have heard
was about the tiger's feet
in the zoo
my son
so there is research
but they did not find anything

and Espinel is also asked about
and he says
my tigers eat only the finest meat
that exists
and do you really think
that my tigers would eat
someone as tall as John
I think it's a good story
but also who then fed him
these kind of pistes
I find very attractive
and fun
for the rest
he was spotted
hundreds of thousands of times
I have written a few
letters
that I have seen in Africa
because that is also a pistes
that they think he is not emigrated
and that he would be seen there
go on
so
there is
indeed South Africa
and there is also a spender
who says after that
it is possible
the idea now lives that he is
indeed going abroad
and like Susan
the friend he had seen
where he had written the letter
he says it could be
that the mafia
helped him to get the country out
but
that was a too big risk
to protect him
and that he would have died
and in one of the reasons
would have buried in Switzerland
but with all that
we will see what we think

but
those are all very quick actions
they all have to be
on the eve of the events
so I am convinced
that everything is clear
and then he did it alone
he didn't do it
or it had to be planned for a long time
because he also got more excited
about the events
maybe he was a doctor
and knew
ok, quick question for you
is John the killer of Sandra
yes
is he the killer of Sandra for you?
yes
but fortunately
it wasn't
he did die for Ronica
yes
what I find very strange
because if the plan is a murder
why
how often do you come as a woman
in the basement where the
nanny has to... do you understand?
what would he do there?
I think that he just
wanted to get inside
and that Sandra was
unexpected
because Sandra was always seen as normal
with her boyfriend
but he knew that Sandra was right
not like
that shit is not my wife
no, he probably
thought that Sandra would recognize him
but if he knew something
then two people would die
but at the last moment
he made the decision

and this is my suggestion for you
he wasn't drunk
from a casino evening
no, because he already had
to get the car
he had his own car
there were several steps
because he couldn't think
clearly
he already had a story
about what would happen
he knew
which letters he had to write
I find it very difficult
to step between
his girlfriend
why?
to create a kind of alibi
to explain to different people
you couldn't send a message
people didn't pick up the phone
or the door didn't open
I had to go somewhere
and tell them what happened
so that you in the hope
that you believe me
and then
is John still alive?
or is John alive that evening
outside?
look, there was a lot of search
for him in the neighborhood
where the car was
outside a different town
so I think
that he got further
than there
but
I don't know how he
came out without his passport
but he knew
within the underworld
who could easily
create

an identity card or passport
so for me the options are there
it would have been much easier
to get rid of him
and he is unrecognizable
I have thought about it for a long time
and I know why
I am so convinced that he got further
and that is
because of that stupid James Bond casting
in my head
I have been smoldering to the first person
and I was like, of course he got us
he can do it
so I am following him to that place
where it probably isn't like that
probably he is just laughing
did something happen
or did he fall into the water
or did he choose suicide
because he couldn't press that
but in my head I have
the ownership of James Bond
and John Bond
merged
sorry I was wrong
because he told
his friends that
if he is dead
he would help me
with my faillissement
but
yes, because of the flight
he doesn't get money
or if he is killed
so there is the motivation
of course
also crumb, if it were
I just want to think about it
but in my head
he has also flown
I don't
have the idea that he has made it
but it is pure speculation

pure speculation
further
so
John is missing
everyone mesmerized
but for decades
you said
he is being spotted
in different places
one of them
would have been
after the murder
but that was
to go to a British politician
John Stonehouse
to fake
then the police went to the murder
also to France
to make a statement
but there was nothing
about it
and then he was in Colombia
a sighting
but that was an American thing
in 2003
he thought
a detective
from Scotland Yard
he thought he had been spotted
in India
and for people who don't know Goa
Google it
that is a party
with a lot of Goa music
and events
but it turned out
to be a folk singer
so totally not
John
then in 2007
this is my favorite
this is my favorite
in 2007
and there are people

who say
we have found him
our neighbour is John
and it was about a Brit
who lived in New Zealand
in his old car
together with
a bull
a bull rat
and his cat
and a goat named Camilla
the bull rat was called Red Fern
the name of the cat is unknown
but he said
they were convinced
because he was in upper class
and he thought
he was a military
and that was John
I'm talking about a person
who lived in his car
I'm very curious about that
but
the man
said he was a photographer
and I moved to New Zealand
in the same year
John disappeared
I do find it interesting
the thing is
I had to disappear from the radar
I would
opt for a totally different lifestyle
so
that's why I can
understand the Goa
I understand the bull rat
then I think out of everything
be bold
do something else
but to live in an old car
John, the man with his money
do you understand?
so now I'm

John and James Bond
he's good in that
so I see him
go to the cashier
and then give everything
no, or learn from his father
he has a second chance
but he lives in his car
so that's why he's not here
and then there was something in 2022
recent
you guys have sent this article to us
this might be a nice thing
to bring out
here we are
because then
expert in face recognition
Hassan Yougeel
and he says
John Bingham, I found him
he lives in Australia
and I'm sure of that
because I have an algorithm
and that never lies
the computer science company
AI
the algorithm does
4000 cross-controllers
on 7 different photos
4 of John
and 3 of the man
in question in Australia
the result was an income
Yougeel says
this is no opinion, this is pure science
it's a curious fact
the man in question
is a Buddhist
who lives in Brisbane
85 years old
and that's the life
that Lord Luke would have had
and
Nancy's son

comes
and says
I've been doing this research for 9 years
sorry?
sorry, what did I say?
Nancy?
I said
I've been doing this research for 9 years
and the fact that
this algorithm
I'm sure
the police have to shoot in action
we don't know
if that's happening
the Mirror has done research
they've hired another company
to do the same
tests with the same photos
and they came to the same conclusion
I just want to know
if the police are involved
with it
I don't have anything else to say
No, because I've been googling
and I do know
there's something else going on
but I find it
very interesting
and exciting
that
this can
or not
this will be followed
here we want to see updates
we know other Buddhists
in Brisbane
we'll see
now
about the case
in 1975
Veronica gave an exclusive interview
to the Daily Express
and
is online

to show the usual time gestures
and the model she is
is doing a
reconstruction of the murder
and
she also poses in those photos
I haven't seen her yet
I'll look for her
there are also photos of the outside rat
don't worry
now, 3rd news
in 2017
Veronica left life
86 years ago
because she thought
she was suffering from Parkinson's disease
why did she think
she thought she had passed
by the medication she had to take
from John
but
yes
she started to chew
she started to chew
and she was convinced
she had Parkinson's disease
but it turned out
that her arrest was normal
so
she thought
the pills she was taking
did that trigger that?
yes, indeed
there are people who study
who
don't have a diagnosis
I'm very good at it
I always have a tumor in my head
but please go to the doctor
and then
we are still in 1999
and John
is officially declared dead
but it is only in 2016

that there will be an act of
probably suffering
and so George
the son of John and Veronica
have to wait so long
you have to wait so long
what a sad story
I don't understand
that doesn't exist
it really happened
yes
I hope that we can
reshape that Buddhist
the thing is, I would find it
very difficult if he is still alive
why?
he has someone murdered
and those screws speak to me
or what?
death, in the water
screws
I don't think it makes sense
I don't treat him like a Buddhist
in Australia
I don't treat him like that
classic
I have done something bad
I'm going to improve my life
in a temple
yes, no, I don't treat him like that
I hope that something will come out
I don't think
I don't believe in death
and I don't say that every murder
has to die
but you have to get a punishment
and that is like
in either way
I think you have to be punished
of course, absolutely
that man has been punished
that's all
so to be continued
I find this very exciting

and then I wonder
if we have to look for an AI
is there a job
is there a
is there an income
we would like to participate
I find it very fascinating
well, that was it for today
my god
the summer vacation is on
do you realize that?
it hurts in my heart
I had a great summer
I hope you too
are ready for the new school year
and now all those high schools
and universities
we still have September
you know what we mean
bye
