but first of all

seasons 1 to 2

yes, one should be 10 by 2

we should have a total of 22 by 3

like last season

because for example

For me, what makes me angry is that suddenly, let's say in this case Abanda Serrano, who is an extra class boxer, who says, I want to box 12 out of 3 minutes and there is no regulation, but not the advice, but the firm, I imagine that the medical committees of each organization say, well, in that case, that they regulate, that is, no one debuts, a guy does not debut at 12 jumps, he debuts at 4 jumps and then maybe he does 6 jumps and then 8 jumps, that is, he is like regularized, no one debuts at 12 jumps, it is something that is the machenco, you understand me, that is, but after having had a career to kill, indeed, but I mean that he is regulated and here, what surprises me is not the exact, it is not the initiative of Abanda Serrano, but rather the advice says, I do not get involved in the mess, but the other organizations that also ...

I think they are disparate, I think they were 10 jumps at 2 minutes, they are 20 minutes, I could give him 8 out of 3, 24 minutes, even up to 10, look what I tell you, up to 10 jumps, because those minutes that people do not give him so much time, they say, hey, those are 6 more minutes, that is, the spectators with whom you have spoken say when, you get to that limit that does not give you much time.

Well, look, we are going to ask ...

Women in their final training if they are prepared for so much, because it is a lot, it is a lot, apart from men, normally elite women enter a lot with men, that is, because they do not have to do sparring, they are used to doing ...

But it is not the same ...

But I think that beyond the physical grip of a combat, it is the consequences of ...

Yes, but ...

We are going to ask the doctor Alejandro Mejuto ...

You are prepared, for example, for an assault, and when you go wrong, it is ending, it is an assault of 2 minutes, but if you have one more minute left, there it is, friends, and the detainee comes ...

Of course, of course, but that is why the chaos is also in the male ocean, that is, we have said many times in the fights, especially in the big women's fights, the assaults remain a little short.

I mean, I say because I think they are sometimes a little precipitated, if they had those three minutes, I think they could have dosified a little more, but hey, let's talk to the specialist ...

Yes, it is the doctor Alejandro Mejuto, the doctor of the Boxing Federation, the doctor of the Deporola, doctor, how are you? Good evening.

Hello, good evening.

Welcome to the field of basketball, how are you?

Well, very well, thank you very much for the interview.

From the medical point of view, is there any inconvenience in this decision?

Well, from the medical point of view,

let's see, it is when it is less controversial,

that is to say, that in this case Amanda Serrano,

due to her characteristics, is a boxer who has a level of preparation

that can allow her this,

for what you comment, because she does her sparring with men

and that she can be conditionally prepared to do two three-minute jumps, I think you have to take this as an exceptional case, but the rule we cannot make of an isolated case, a generalization, that is, the entire female boxer is organized for two-minute jumps from the subject to the professional until now, all training is based on that and it is also based on the characteristics, even if we see, if we see in the cervical column of women, it is not the male, it is the ability to assimilate the blows, it is true that the glue is not the same, the ability to assimilate the cervical column is not the same. When we presented in the Social Society of Medicine and Sports, a few months ago, a protocol of the management of the emotional cinema, we know that women, the female sex is a risk factor to have a worse pronostic in the emotional cinema, that is, there are particularities regarding the sex that must be taken care of, so the fact that Amanda Serrano can have some particularities around her preparation, we cannot make the generalization of that this is correct. And doctor, how strange, what I was wondering, I do not know, you do not put or there is any kind of normative, because the girls, the truth, I, almost all those with whom I have spoken, they want to kiss at three minutes, they want to kiss at three minutes. The issue of duration, well, there would be what there is. Of course, it could be eight, eight or ten, but I say that that should not be, how to adjust, to adjust, right? Maybe the debate should not be two or three minutes, maybe it should be like this, three minutes, but eight or ten. That, right? The problem is not eight, eight, ten, two, three, in the end, how many blows do we put to the boxer and in what circumstances of fatigue? That is the problem. Of course, the more fatigue, the more risk, evidently. Logically. That is the problem. I understand that the spectator, what the spectator wants, logically, but we see it through health. So, the dangerous blows are those that occur in the context of fatigue. Yes. In the context, and of course, that minute, that minute of gold, between two and three, what Jaime says, of course, is that there is less chaos, of course, indeed, but it is that those blows do harm, then, if you go up. Well, that was not the case, doctor, it was the old descent of the 15 jumps

in the male body at 12, it was because there had been many medical studies that confirmed what the doctor is saying, that indeed, when the physique was already over, when the fatigue was already there, there were some limits, that was when they were produced, that is, between 12 and 14, 15, many injuries were produced there, and I think that's where the thing comes from, right? Of course, it is that I, if you ask me, fighting three jumps would be a barbarity, no, maybe it wouldn't be, but then maybe we are going to go down to the number of jumps. Ok, perfect. So, 10 out of 2 are 20 minutes of fighting? Yes, 8 out of 3 are 24. And then it looks more like me, I think, which is the box, so that I can also justify, hey, that then there is a contact sport, and of course, of course, 10 out of 2. At 12 out of 3? Of course, if there are 10, it is double, in case. Practically double, yes. Practically double, yes. And see, tired, I go, we are going to discover it in hours, right? But I don't think that, I think that Amandas Arrano, today... Not that much? Yes, he wins before the limit. With those minutes of more that he is going to have there, and also, surely, I don't think I am a divine, look, you don't know what I'm going to say. When you said that of the 15 jumps, there it was agreed very carefully, the Manila trail, that they ended up destroyed, I, Frasi, and that... In the 14th? Yes, in the 14th. And the 15th is no longer possible. Well, they had very much in mind, they ended up tied, both of them. The other one, very bad, that he stayed with the park, who jumped all the way. Well, when he said, he has never been so close to death, I saw him that day,

and then if we go back  
to the history of boxing,  
at first it was Finnish,  
then it started to be 25 years old.  
Yes, yes, with time it has been reduced.  
To minimize the years, of course.  
Very well, doctors,  
thank you for having been this night  
in the field of gas,  
we will be very attentive and see how this evolves.  
Let's see what happens.  
And strength of power, huh?  
Strength of power.  
Thank you very much.  
Thank you very much.  
A hug, see you soon.  
A strong hug.  
Well, today we have boxing,  
and tomorrow we also have...  
Wait, I don't want to end with this,  
more than anything, because there is no...  
The girl says that there are no studies  
that say the opposite,  
because she says it,  
and she pointed it out to the doctor,  
the one who hits you is a girl.  
Of course, you have a weaker one,  
maybe the part of...  
The one who hits you is less confident.  
Yes, actively.  
The one who hits you is less confident.  
But the worst thing is that...  
you see that...  
Okay, the jump is ending,  
there are 10, 12 seconds left,  
and you go,  
I'll kick it and you'll finish.  
No, you have 10, 12 seconds left,  
and one minute left.  
There comes the time.  
Yes, there are...  
There are the referee as well,  
if they are ready,  
if they produce...

In this sport,  
that's why they invented inferiority.  
Of course.  
And the referee intervenes,  
no? There is superiority.  
Well, that was tonight,  
and tomorrow at night,  
we also have a fight,  
in this case in Riyadh,  
in Saudi Arabia,  
in Dazón,  
we are going to see the Tyson Fury  
against Francis Enghanu.  
That's good.  
Jaime doesn't like this a lot.  
Me neither.  
By the way,  
the corner of Francis Enghanu  
is going to be...  
Mike Tyson.  
Mike Tyson.  
The best is the promo.  
And in Ganu,  
Cristiano Ronaldo has given  
a 100,000 euros watch.  
They have made a promotion.  
And it turns out that Tyson Fury  
is called Tyson by Mike Tyson.  
And the other one goes to the other corner.  
It's all a mess.  
I wouldn't say more.  
It's all a mess.  
It's a show.  
The only good thing is...  
Let's see if the truth is good.  
It's still good.  
There are good fights.  
Yes, but the only good thing about this  
is that Tyson Fury has said  
that he is waiting,  
that he has signed the contract  
with Usig,  
for the fight,  
and that it will be on December 23.

The other one is not so clear  
that it is that date,  
because he says  
that it is three months  
what he needs,  
and of course,  
more fighting this morning.  
What he means is that  
it can be...  
Yes, a cut.  
A cut.  
It will be in November,  
and always.  
No, I don't think  
that fight is...  
Less than two months.  
Less than two months.  
Tyson Fury can say  
that you already know  
what that date is.  
Like I said,  
I'll start before.  
But I don't know.  
I don't know if it's going to be a strategy...  
Yes, so that it doesn't be done later.  
So that it doesn't be done later.  
Yes, until I see you in the movie.  
Indeed.  
It sounds like the bell of the bell.  
Exactly.  
I don't believe it.  
Yes, yes.  
That's it.  
And tomorrow,  
I'll fight John Fair  
in the gym of the radio.  
The truth is that  
preparation has been very good.  
We've been in Las Vegas for three months.  
I've been able to do sparring  
with people of many levels.  
And in the end,  
there has also been my level,  
apart from being able to train

with wings  
and being able to live the boxing  
in another way.  
And above all,  
to live focusing on boxing,  
which is  
what changes the most  
from Spain to the United States.  
And the truth is that  
I really want to  
return to the ring on Saturday.  
I'm very close to the weight.  
The truth is that  
the super light weight  
is very controlled.  
And I really want to be able to  
boxing,  
to debut in the stadium  
of the ring,  
which I never boxing there.  
And the truth is that  
there is a lot of history.  
Everyone in the boxing world  
has passed through there.  
And I don't,  
so I want to be able  
to be there  
and have a good fight.  
And people are very happy  
with the result.  
Well, our goal  
in the short term  
is to boxing three times this year.  
Let's see if we can do  
another event  
before the year ends  
and everything goes well  
this Saturday.  
And for 2024,  
I would like to  
boxing in Bilbao.  
I have been boxing in Bilbao  
for a long time.  
And the truth is that

I would be very excited.  
I think people from Bilbao  
also want to see me there  
again.  
So let's see  
if we can  
join those two things  
and have a good event there.  
I hope it's possible  
that Bilbao returns.  
This is the first fight  
after the one we saw  
against Pieta Petrov  
in the boxing world,  
which was very good.  
It was very good.  
It was very good.  
It was very good.  
I liked it.  
Four jumps,  
but it was a terrible jump.  
It was the last time  
that everyone  
was going to say  
that we have seen  
wonderful that day.  
Exactly.  
Exactly.  
The last fight  
against an Englishman.  
Exactly.  
And it seems  
to me that  
that is finite.  
Yes.  
And John Ferke  
fights against Andy Colquay.  
Yes.  
It is an Englishman,  
but the important thing  
is that it has been  
three months,  
as he has said  
in Las Vegas,

in the United States,  
with Ismael Salas,  
a Cuban coach.  
It was going to be very good.  
And that, by the way,  
from one of the declarations  
Salas said that  
he did not know her.  
He said,  
you know,  
that he cuts  
as it is said a little  
in the Argot, right?  
And,  
I mean,  
well,  
all that has to be  
plasmated in the ring  
and see if the next year  
he also has  
some good opportunity,  
because the truth is  
that the fight  
there in the Wishing Center  
was very brave.  
He left us  
a great feeling.  
With good,  
really fast,  
good, good,  
precise.  
Look at the weight,  
what we say so many times  
when it was  
with the height  
that had a super plumb.  
Of course,  
in the end,  
no matter how much  
you want to squeeze,  
look, now it's not  
super light  
and super light.  
There have been two categories

where it really is  
more comfortable.  
More comfortable and strong.  
No, no, no.  
Of course, the other is.  
Before,  
you could not do that.  
It was in eight categories.  
It is to go from one to the other.  
I do not tell you anything.  
It is that the other,  
of course,  
go through.  
That's why there was so much  
difference.  
Of course.  
That's why the famous  
great champions  
of the heavy semi-weight type  
Archimour.  
All of a sudden,  
they went up to the heavy weight  
and fiddled them  
because, of course,  
they started to go up  
from 79 kilos  
to when they started  
90, 94.  
95, of course.  
Well,  
we have a weekend  
of boxing and football.  
Director,  
Barça Madrid,  
what do you think  
is going to happen?  
I think there may be a tie.  
And Jaime,  
what do you think?  
Well,  
also,  
with goals.  
Well,  
a tie.

We will have fun.

Yes,

a tie with goals

and then there will be

no satisfaction.

No one.

No one.

No one.

There will be

Cristó,

I'm sure.

I'm sure.

It was the hand

that had to be pressed.

Exactly.

The push

or the second card

of this.

No,

no,

it's going to be fine.

Jaime,

let's go.

We'll see you in a moment.

Let's go.

Director,

let's take positions.

Happy week.

Thank you.

We're getting together.
