from the West, more and more often rain.

In Russia, President Vladimir Putin announced the

stationary tactical nuclear weapons in Belarus

and thus the EU's foreign border.

Ukraine calls Belarus a nuclear diesel Russia.

The German government is talking about a further attempt of nuclear integration.

The US has reacted, according to black reports.

The announcement comes at night at the best time of the show.

The Russian tactical nuclear weapon.

Tactical nuclear weapons in Belarus,

so directly at the border to the European Union.

Russian President Putin makes a decision

with which, from the Great Britain,

the arms breaking ammunition

with enriched uranium will be delivered to the Ukraine.

And he points out that the US is also...
